18th October, 1909.

HIS Excellency the Governor directs the publication, for general information, of the following instructions for the cultivation of bananas and plantains prepared under the instructions of the Director of Science and Agriculture.

By Command,

CHARLES T. COX,
Government Secretary.

CULTIVATION OF BANANAS AND PLANTAINS.

The terms "banana" and "plantain" were formerly used very loosely, but now "banana" or "sweet plantain" is generally recognised to cover the sweet varieties of fruit that are used without cooking, while "plantain" or "cooking banana" refers to the vegetable-like fruits which must be cooked to make them palatable.

As pointed out in the report on the agricultural work in the Botanical Gardens for the year 1890, it is only after a long and well-trained experience that the plantain can be distinguished in the field from the banana when not in flower or fruit. When in fruit, however, the case is different. In the banana, the stem or axis of the bunch grows even after the fruit has developed, and continue to do so as long as the fruit hangs. Cluster after cluster of flowers, with their bracts open and drop away and a firmly compacted mass of unopened bracts and flowers remains at the end of the stem some 2-3 feet below the bunch. In the plantain, the growth of the stem is arrested soon after the fruit sets and it ceases to extend more than 12-18 inches beyond the fruit, while the succeeding clusters of flowers and bracts open and remain attached from the bunch of fruit to the end of the stem. The only exception to this rule for the distinction of plantains from bananas when in fruit is the dwarf or Chinese banana in which, as in plantains, the abortive flowers and their bracts are constantly persistent.

Varieties.

The only varieties of bananas cultivated and exported on a commercial scale to markets in temperate countries are the Gros Michel or Jamaican banana, and the dwarf or Chinese variety.

The Gros Michel or Jamaican banana was known formerly as the Martinique or Pouyat, and it is also known as the Dominican variety. It is the variety cultivated in Jamaica, Surinam, Costa Rica and other Central American countries, chiefly for export to the American market. It is comparatively thick-skinned and the separate fruits lie closely to the stem. Thus it may be shipped naked.

The dwarf or Chinese variety is largely grown throughout the West Indies for home consumption, and is the variety cultivated in the Canary Islands for English and European markets, where it is sometimes known as the Canary banana. It is comparatively thin-skinned, and can only be shipped, packed in crates, in cold storage. The separate fruits on a bunch of the dwarf banana ripen irregularly, and it is thought that this character is perhaps an important drawback against the shipment of this variety for long journeys except in cold storage.

The "fig," "apple fig" and "lady's finger" varieties of banana which are recognised in the tropics as the most delicious of dessert fruit, are too delicate for export.

The "claret" or "red" varieties fetch a high price in America and Europe as decorative fruits for the table, but the price is maintained by reason of the small supply. To command good prices, these varieties must reach the American and European markets in first-class condition, and should therefore be shipped in crates in cold storage. The bunches of these varieties usually contain only a small number of hands and therefore a high price is necessary to make their cultivation in any way profitable.

There are also coarse varieties of bananas, such as the "horse" and "apple," that are used locally. They are only palatable when cooked, and are made into preserves or are used in breakfast dishes.

There are three or four kinds of plantains that are generally cultivated in this colony, and they form one of the staple foods of the labouring classes. Plan-

tains are exported only in very small quantities to the American market, mainly from Honduras.

Preparation of Land and Drainage.

Bananas and plantains do best on a deep well-drained soil containing a fair quantity of humus. They grow particularly well in freshly cleared forest-land but in land that has been worn out by continued cultivation whilst they may grow fairly satisfactorily, they yield only poor crops of small bunches. They will not do well in sandy land.

Land that is to be planted should be thoroughly forked or ploughed and made up into beds 3 rods (37 feet) wide. Good drains should be dug at the sides of the beds, and the earth that is taken out should be thrown into the centres of the beds, so that they are made up higher than the sides. In districts where drainage is not particularly good, cross drains or bed-drills should be dug at regular intervals across the beds. *Good drainage is absolutely essential for success in growing bananas.*

After forking the beds and digging the drains, the land should be allowed to lie fallow for a month or two, and then the beds should be weeded and broken down with the hoe. The beds should, at the same time, be lined 3 rows to the bed, for the banana suckers. The Gros Michel or Jamaica variety should be planted 14 feet square, the plants in the centre row of each bed alternating with the plants of the two outside rows.

The dwarf or Chinese variety should be planted in rows 14 feet apart but the distances in the rows may be reduced to either 10 or 12 feet. Holes should then be dug 1 foot 6 inches square and 2 feet deep, and should be left open for a short time.

Planting out.

Planting should be done when rain can be relied upon to assist the young plants, i.e., at the beginning of the rainy seasons. The best time to plant is with the rains in December and January, but if bananas are required for an export trade planting must be done so that the greatest number of bunches are timed to be ready for shipment when the market prices are at their highest. This is usually from March to the middle of August, and therefore planting for the export trade may best be done in February or March.

The holes that have already been dug for the suckers should be half filled with surface soil, and, if possible, a basket of manure or of compost should be placed at the bottom of each.

The suckers to be used for planting purposes should be carefully chosen. The best kind of sucker to plant is that known as a "sword" sucker—a sucker that has not been cut back—as shown by the very narrow leaves. Suckers that have been cut back and have large broad leaves will not give as good results as those not pruned. They should be of good size and should appear to be strong and vigorous. They should be cut down to about 1 foot 6 inches to 2 feet above the level of the ground, and should then be dug out, the old roots trimmed off and any portion of the old parent bulb removed. They may be planted immediately or they may be left to dry—out of the sun—for a few days. It is held, however, that fresh suckers grow more readily than those that have been kept for any length of time.

After Cultivation.

The suckers should be planted about 6 inches deep and the earth carefully pressed down around them. After about three months' growth, the holes should be filled to the top with earth and rammed well.

After the suckers have been planted, the land should be carefully weeded as it becomes necessary and an occasional forking of the soil should be given. This cultivation should be continued until fruiting is commencing, when forking should be discontinued and only the weeding practised. After the fruit has been picked, the old stems are chopped up and spread over the land, and are finally forked in and new suckers allowed to grow up. Occasional forkings and constant weedings should again be carried on until the next crop is being produced.

Bananas may be ratooned for 3 or 4 years, afterwards the old stools should be dug out, and the beds replanted, between the old rows, with fresh suckers from another locality if possible.

Bananas do not give the best results in exposed situations and it will probably be found that on many of the lands in this colony the larger growing varieties,

such as the Gros Michel or Jamaican variety, will have to be staked in order to prevent their being blown over by the wind.

Manuring.

To obtain the best results, careful attention must be given to cultivation, and manuring must not be neglected. All the suckers, dead leaves, and old stems should be forked into the land to form humus, as also should all the weeds that are from time to time cut down. When pen manure, cane trash, or bush is procurable, they should be forked in, for they have a high manurial value and they considerably improve the general texture of the soil. The greatest attention should be given to the addition of pen-manure and other humus-forming substances where the soil is poor, and if the growth does not appear to be satisfactory, artificials may be used. Sulphate of ammonia, to the extent of 1 cwt to 1½ cwt. per acre, would give satisfactory increases in returns.

Removal of Suckers.

By far the most important operation in banana cultivation is the removal of such suckers as are not intended to yield fruit. Not more than three plants should be left to each stool. All others should be removed as early as possible and should never be allowed to grow to more than two feet in height.

They should be cut by means of a shovel away from the bulbs of the plants that are being left. The shovel should have its cutting edge away from the plant, and the sucker must be cut away down to the white, hard part or otherwise it will soon spring again. To simply cut the suckers off at the level of the ground and not to attempt to sever them from their parent bulbs is a waste of time.

Fruiting and Picking of Fruit.

In newly-planted bananas the usual time before the fruit makes its appearance is from 10 to 12 months, and the fruit takes from 3-4 months before it is ripe. Thus the first crops take from 13-16 months before they are ready for picking. The second crop comes on about 3-5 months after the first. Ratoons bear in from 14-16 months. The time in each district varies slightly, and the exact time for any locality can therefore only be accurately ascertained by experience.

In picking the fruit, the plants should not be felled so that the bunches fall to the ground. The stem should be cut partly through fairly high up, so that the bunch falls gently and can be caught by a second person. It should then be severed and wrapped in soft banana trash. Bunches of bananas should be kept dry and should be shaded from the sun. Unbruised bananas are worth considerably more than those handled roughly. Bunches intended for shipment should be cut about 15 days before they would be ripe. In cutting off the small end of the banana spike care should be taken to leave not less than 4 inches beyond the last "hand" of the spike. This operation may be performed in the field some time before the bunch is cut.

Packing for Transport.

The Gros Michel or Jamaican bananas are shipped naked, i.e., they are not packed into crates. The bunches are taken out of the banana fields, wrapped in trash, and handed carefully into a cart or punt where they are carefully packed so that they cannot get bruised. Afterwards they are similarly transferred from the carts or punts into the steamers for shipment.

The dwarf or Chinese banana must be carefully packed into crates. The following method is generally adopted :—

The bottom of the crates are first covered with a layer of banana trash and each bunch is then wrapped in cotton wool and finally in paper. Strings of the sheath of the banana leaf are then lightly wrapped round the sheets of paper to keep them in position while the bunch is being put into crate. The bunch is now carefully placed into the crate and the banana trash is stuffed around it until sufficient has been put in to prevent the paper from unwrapping. The strings of the leaf-sheaths are then cut and drawn out, and more banana trash is pushed in until the bunch is firmly fixed in the crate. The top of the bunch is also well covered with trash, and the slats that form the top are nailed on.

Transport.

The Gros Michel or Jamaican bananas are graded at the port of shipment but in the case of the dwarf or Chinese variety, each crate should have the shipping mark and a mark indicating the quality of the fruit stencilled on that end of the crate containing the flower or small end of the bunch.

In shipping dwarf bananas, the following method of marking is practised :—a bunch weighing when in the crate from 40 to 49 lbs. (gross) should have one

"x" marked on the end of the crate, a bunch weighing 50 to 59 lbs. "xx," one weighing 60 to 69 lbs. "xxx" or so on.

Bunches which weigh more than 60 lbs. should always be shipped by themselves, but when they weigh less, they may be packed two in the same crate, side by side. This fact should be indicated by putting the figure 2 after the "x's" marked on the end of the crate.

Destruction of old Stems.

In Jamaica, after the bunch is cut, the head of the plant is severed completely from the stem about 2 to 3 feet above where it was partly cut through in order that the bunch might fall for picking. This top part of the stem, as well as the leaves, is cut up into small pieces and spread over the ground for manurial purposes. The lower portion of the stem is left to decay, and it is not severed low down near the ground as it is thought that a large proportion of food-material in the stem passes downwards into the bulb. In some other countries, after the bunch is cut off, the whole of the old stem is cut down near the ground and chopped into small pieces and opened over the land. It has yet to be demonstrated which of these two methods gives the best results.

Diseases.

Diseases of bananas are fairly common in some countries, mainly where they are grown in unsuitable or impoverished soils. A disease has recently done enormous damage to bananas in Panama and other diseases are not unknown. In this colony, the bananas, fortunately, are fairly free from disease but a disease of plantains has long been known. Diseased stems exhibit internal decay and the leaf-sheaths turn to a sodden, putrid mass, while the roots and root stock also rot away. Very wet weather materially increases its prevalence on heavy new land. Good drainage and high planting appear to reduce its ravages. It is frequently common on newly-empoldered lands where the drainage is poor.

Good drainage and careful cultivation are essential for successful banana or plantain culture as fungus disease or diseases of the roots caused by nematode worms are greatly increased by lack of attention to these important points. All diseases noticed in bananas or plantains should be at once submitted, with specimens, to the Department of Science and Agriculture for investigation, in order that remedies may be devised if possible.

Government Notices.

GOVERNMENT SECRETARY'S OFFICE,
Georgetown, Demerara,
12th October, 1909.

161.
HIS Excellency the Acting Governor directs the publication for general information of the following Royal Warrant instituting "The KING'S Police Medal," together with the Regulations relating thereto:—

THE KING'S POLICE MEDAL.

The KING has been pleased to issue a Warrant under His Majesty's Royal Sign Manual to the following effect:—

EDWARD, R & I.

EDWARD THE SEVENTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas King, Defender of the Faith, Emperor of India, to all to whom these Presents shall come: Greeting!

Whereas We have taken into Our Royal consideration the good services which are rendered by officers of the Constabulary Forces and by persons serving in Fire Brigades within Our Dominions and in Territories under Our Protection or Jurisdiction and the heroic acts of courage and instances of conspicuous devotion to duty of such persons which are from time to time brought to Our notice:

And whereas We are desirous of distinguishing such meritorious conduct by some mark of Our Royal favour:

We do by these Presents for Us, Our Heirs and Successors, institute and create a new Medal to be awarded for such acts and courage of conspicuous devotion to duty.

Firstly.—It is ordained that the Medal shall be designated and styled "The King's Police Medal."

Secondly.—It is ordained that the King's Police Medal shall consist of a circular Medal of Silver with Our Effigy on the obverse, and on the reverse a design emblematic of Protection from danger, and shall bear on the rim the name of the person to whom the Medal is awarded.

Thirdly.—It is ordained that the Medal shall only be awarded to those of Our Faithful Subjects and others who being members of a recognised Police Force or of a properly organized Fire Brigade within Our Dominions or in Territories under Our Protection or Jurisdiction, have performed acts of exceptional courage and skill or have exhibited conspicuous devotion to duty; and that such award shall be made only on a recommendation to Us by Our Principal Secretary of State for the Home Department.

Fourthly.—It is ordained that the names of those upon whom We may be pleased to confer this Decoration shall be published in the London Gazette, and that a Register thereof shall be kept in the Office of Our Principal Secretary of State for the Home Department.

Such Register shall show the name and rank of the person holding the Medal, the Police Force or Fire Brigade of which he is or was a member, and particulars of the action for which the Medal has been awarded.

Fifthly.—It is ordained that each Medal shall be suspended from the left breast, and the riband, of an inch and three-eighths in width, shall be dark blue with a narrow silver stripe on either side.

Sixthly.—It is ordained that any act of gallantry which is worthy of recognition by the award of the King's Police Medal, but is performed by one upon whom the Decoration has already been conferred, may, on a recommendation to Us by Our Principal Secretary of State for the Home Department, be recorded by a Bar attached to the riband by which the Medal is suspended; and for every such additional act an additional Bar may be added.

Sevently.—In order to make such provision as shall effectually preserve pure this honourable Decoration, it is ordained that if any person on whom the Decoration is conferred be guilty of any crime or disgraceful conduct which in Our judgment disqualifies him for the same, this Medal shall, by an especial Warrant under Our Royal Sign Manual, be forfeited, and his name shall be forthwith erased from the Register of those upon whom the said Decoration shall have been conferred. And every person to whom the said Medal is given shall before receiving the same enter into an agreement to return the same, if

his name shall be so erased as aforesaid under this regulation. It is hereby further declared that We, Our Heirs and Successors, shall be the sole judges of the circumstances demanding such forfeiture.

Given at Our Court at *Saint James's*, the seventh day of *July*, one thousand nine hundred and nine, in the ninth year of Our Reign.

By His Majesty's Command,

H. J. GLADSTONE.

The following Regulations shall be observed in recommending His Majesty to grant the King's Police Medal:—

1. A list of the names of officers of recognised Police Forces, or of properly constituted Fire Brigades, who are recommended for the Medal, shall be submitted once in each year to His Majesty by the Secretary of State for the Home Department.

Provided that a recommendation may be made at any time when His Majesty so commands.

2. A list of officers recommended by the Secretary of State for the Colonies and the Secretary of State for India shall be forwarded to the Home Office in the month of October in each year.

3. Each list shall contain the name and rank of each person recommended, the Police Force or Fire Brigade of which he is or was a member, and particulars of the action or service for which the grant of the Medal is recommended.

4. The number of Medals awarded in any one year shall not exceed one hundred and twenty, of which at the most forty shall be awarded for service in the United Kingdom of Great Britain and Ireland, the Channel Islands, and the Isle of Man, thirty for service in his Majesty's Dominions beyond the Seas, and fifty for service in the Empire of India.

5. In very special circumstances, which, in His Majesty's opinion, would justify an exceptional grant, His Majesty may award Medals exceeding the above number.

6. The qualifications for the grant of the Medal shall be as follows:—

(a) Conspicuous gallantry in saving life and property, or in preventing crime or arresting criminals; the risks incurred to be estimated with due regard to the obligations and duties of the officer concerned.

SUPREME COURT OF BRITISH GUIANA.

APPELLATE JURISDICTION.

THIS 2ND DAY OF OCTOBER, 1909.

ABLACK, Appellant,

versus

LUTOHMEE PERSAUD, Re-pondent.

This is an appeal from a decision of a Magistrate of the Georgetown Judicial district, who gave judgment for the plaintiff with costs on a claim of \$20, the balance of purchase money of a piece of land sold and delivered to the defendant.

The reasons for appeal are:

1. That the decision is erroneous in point of law;
(a) The plaintiff by his deed of transport passed to and in favour of the defendant acknowledged that he had been fully paid and satisfied for the said piece of land, and is therefore estopped by the said deed of transport from denying that statement.

(b) The case of *Wilson v. Sealy*, cited by the learned Magistrate, does not apply as no estoppel could have been raised in that case.

(c) The statement in the deed of transport, as to the value of the property transported does not in any way affect the price paid, which the plaintiff acknowledged he had received.

(d) There was no consideration for the alleged promise to pay.

2. The decision is altogether unwarranted by the evidence in like manner, as if the case had been tried by a jury, there would not have been sufficient evidence to sustain the verdict as the evidence given by the plaintiff was not supported either as to time or place where promise was made by the witness Ramotar, and the plaintiff himself gave two different versions of the alleged promise to pay as follows.

(a) "He said his horse was lame, and he had not got it, asked me to wait on him."

(b) "He said he was going to town and would get the balance from John Tat."

The point really raised is, what is the effect by the words "the appearer acknowledging to be fully paid and satisfied for the same engaging to warrant the said property from all claims whatever, according to law, which appear in this as in all transports."

Are these words an estoppel against a claim for the purchase money?

In 2 Burge p. 71, et. seq., the delivery of immovable property is dealt with. In Holland and other States of Europe it was a solemn and formal act. It was formerly performed *jactu festuce* and hence it derived the appellation *effestucatio*. It was performed in *judicio coram iudice ac cum eo presentibus judicialibus*. "The *effestucatio* ordinarily expresses that the price for which the property is sold has been paid to the vendor. In this case although the payment should not have been made the *dominium* passes to the purchase. If there be no mention of the payment of the price, it is to be presumed that credit is given for it, and, therefore, that in conforming with the principle of the Civil Law the *dominium* is transferred."

"It seems the vendor in a competition with the purchaser's creditors would have no lien for the purchase money. Hence it is the usual practice when the purchase money is not paid, that the property is sold subject to a special hypothec for it."

The term *effestucatio* has been supplanted by the term *opdracht* or *transport*, which in this colony is made before a Judge when it becomes a record. The transport is subject to the same rules as the *effestucatio* and the production of this instrument affords the proof of the preceding title on which the judicial act of delivery has taken place. In *Van der Kessel* CLXXIX, the reason for the mortgaging of the property sold to the seller in the same formal instrument of cession (*Kusting-brief*) is given that is, "so as to give the latter a preferent right as against prior general mortgages."

The passages referred to, show that the effect of the transport is to prove the judicial act of delivery which passes the *dominium* to the purchaser. The words, in the transport as to payment, and satisfaction, are not I think to be considered as such full and complete receipt for the purchase money, as to preclude evidence of its non-payment. No doubt, *prima facie* it is so and the better plan is that ordinarily adopted, when the purchase money is not fully paid, namely, to mortgage the property, otherwise the proof of non-payment would lie on plaintiff claiming it. The price is not mentioned in the transport; the value is stated for the purposes of stamp duty and for that only, stamps being affixed according to the value. The warranty is a warranty of title. This disposes of reason 1, (a), (b), (c), as the case of *Wilson v. Sealy*, did not deal with the point now before the Court, as a question of fraud was raised.

As to reason (d), I think there was consideration shown.

As to reason 2, it does not avail.

The Magistrate was the judge of the evidence, and I see nothing in the two statements referred to, or the evidence generally to justify me in saying the Magistrate could not reasonably conclude that the purchase money was not paid in full and that the \$20 sued for were owing. No evidence was called for the defence.

The appeal is dismissed with costs.

SUPREME COURT OF BRITISH
GUIANA.

APPELLATE JURISDICTION.

THIS 29TH DAY OF OCTOBER, 1909.

RAMOS, Appellant,

versus

JACKSON, (Sgt.), Respondent.

In this case the appellant was prosecuted under Ordinance 17 of 1893, for larceny of a bull. The Magistrate convicted the appellant and sentenced him to one month's imprisonment with hard labour, and further ordered him to pay compensation to the

owner of the bull and in default to undergo one month's imprisonment with hard labour at the expiration of the first month's imprisonment.

The appeal is brought against the part of the sentence awarding compensation, and it is urged (1) that compensation could not be legally awarded, as if awarded at all, this could be done only under section 14 of Ordinance 17 of 1893, and on the application of the complainant, but the complainant made no such application; and (2) that if awarded under section 14 imprisonment in default of payment could not be imposed.

It is clear from the terms of section 14 that if compensation is awarded under that section, the sum awarded is to be regarded and dealt with in all respects as a judgment debt, and therefore imprisonment in default of payment cannot be imposed. It is also clear that a Magistrate cannot award compensation under that section save on the application of the complainant. This so appears from the wording of the section and from the fact that otherwise a Magistrate by awarding compensation might without the complainant's concurrence debar him from his civil remedy (section 15). I am also of opinion that the prosecution being instituted under Ordinance 17 of 1893, and section 43 (2) of Ordinance 12 of 1893, expressly declaring that any order for payment of compensation shall be "subject to the provisions of any Ordinance in that behalf," and that the provisions of that section "shall not affect the procedure of the Court under any statute making express provision with respect to such compensation," any order for compensation in this case could only be made in compliance with section 14 of Ordinance 17 of 1893. The decision appealed from is therefore amended by striking out the part thereof, awarding compensation.

No costs are awarded there having been no appearance on behalf of the respondent.

HENRY A. BOVELL, C.J.

LIMITED JURISDICTION.

THIS 30TH DAY OF OCTOBER, 1909.

J. G. VIEIRA,

versus

L. J. FERNANDES.

The plaintiff claims shortly (a) an injunction restraining the defendant from passing transport of lot 244, Lacytown; (b) an order declaring the opposition entered just, legal and well-founded; and (c) an order condemning the defendant to pay to the plaintiff \$50, paid on account of the purchase money of the said lot 244, purchased by the plaintiff from the defendant.

The defence is that the sale was made not to plaintiff but to plaintiff's wife, in whose favour the transport was advertised and that she neglected and refused to carry out the agreement of purchase.

It is denied that the plaintiff paid \$50 on account. In reply the plaintiff states, shortly, that the defendant sold to him, received \$50 on account, and agreed to give possession on 1st November, 1908, and tried to ignore the plaintiff and to deal with plaintiff's wife and even then refused and neglected to carry out the

terms of the agreement, cancelled and resold the sale and before a reasonable time had expired sold and transported the same to Jose Fernandes Relva.

For the plaintiff a receipt was produced for \$50, dated 10th October, 1909, acknowledging the receipt of this amount from the plaintiff on account of the purchase money (\$700) of lot 244, Regent Street, Lacytown, with all the buildings and erections thereon.

This receipt was duly stamped at the time; but the document had another stamp of the value of 12 cents put on it on 29th March, 1909, for the purpose, as was admitted, of making certain conditions, written below the signature, have the effect of an agreement.

The plaintiff admitted he told the defendant he was buying the lot for his wife and that he asked the defendant to advertise transport in her name.

The defendant did as he was requested and the advertisement duly appeared on the 5th, 12th and 19th days of December, 1908. Some hitch appears to have occurred with the Building Society who were asked to accept the existing mortgage on the property and on the 11th December, 1908, plaintiff's wife wrote to the defendant drawing his attention to the fact that he had not complied with the terms of the agreement embodied in the receipt of the 10th October, 1908, regarding the purchase by her of the lot, such agreement being to deliver possession of the premises to her on 1st November, 1908, and asking him to remedy this and to account for November's rents and also to let her know when she might expect to get possession of the place.

No reply was evidently sent to this letter, but on the 5th January, 1909, the defendant wrote to plaintiff's wife informing her that unless she was prepared to accept the transport on or before the 16th of that month the amount paid by her on account of the purchase of the property would be forfeited. The defendant also expressed his willingness to pass the transport any time before that date if necessary.

No notice was taken of this letter so the defendant sold the lot to one Relva and the opposition was entered with a view to obtain the return of the \$50 paid. The property was later on transported to Relva.

According to the evidence although the plaintiff paid the \$50 to the defendant he was really buying the property for his wife in whose name transport was to be passed. This being so, I do not see how the plaintiff can bring the action in his individual capacity.

I therefore dismiss the claim with costs.

THE following report on the Post Office Savings Bank for the year 1908, is hereby published in terms of Section 35, Sub-section 3 of the Savings Bank Ordinance, 1889.

By Command,

CHARLES T. COX,
Government Secretary.

REPORT ON THE POST OFFICE SAVINGS BANK.

POST OFFICE DEPARTMENT,
Georgetown, British Guiana,
29th May, 1909.

SIR,

In accordance with the requirements of Section 35 of the Savings Bank Ordinance 1889, I have the honour to submit for the Acting Governor's information, a report showing the working of the Post Office Savings Banks for the 12 months ended 31st December, 1908.

2. The usual Tables are appended.

3. *Extensions*.—Two new Banks were opened during the year :—

On 16th September, 1908, at Ann's Grove, East Coast, Demerara.
Do. Weldaad, West Coast, Berbice.

The Bank at Potaro Landing was closed on the 1st April, and on the same date a Bank was opened at Tumatumari, Potaro River, Essequibo.

There were 43 Banks in operation at the close of the year.

4. *Interest*.—The sum received as interest on investments was \$10,654.86. Interest paid on accounts closed during the year, together with that capitalized, amounted to \$9,894.83, leaving a surplus of \$760.03 to be paid to the Reserve Fund. As compared with 1907 the amount of interest received shewed a reduction of \$808.61. This is caused through a discontinuance of the practice of writing back amounts received in the new year to the previous year in which the interest was actually earned. Only interest received by the Crown Agents to 31st December is included in the accounts. In this manner the sum of \$1,421.74 earned in 1908, but not received until 1909, will be dealt with as a transaction of the year in which it was received.

According to these figures the loss of \$3,187.25 shown in Profit and Loss Account would have been less by \$1,421.74. The actual loss is therefore \$1,765.51, and this I attribute to the increased rate of interest, from 2.40 per cent. to 3 per cent., operating on the accounts during the entire year as against six months only in 1907.

5. *New Accounts*.—On the 1st January, 1908, there were 12,421 Accounts on the books of the Bank, new Accounts to the number of 5,307 were opened, 3,686 were closed, and 436 transferred to the Dormant Ledger, leaving at the close of the year 13,606 current Accounts an increase of 1,185 on the year's work.

6. *Increase of Balance at Credit*.—The amount at credit of Depositors at the commencement of the year was \$391,422.12. The deposits totalled \$347,815.06, and interest allowed on Closed Accounts and capitalized in current accounts \$9,894.83. The sum withdrawn, including amount transferred to Dormant Ledger, was \$343,388.13, leaving at credit of Depositors at 31st December, 1908, the sum of \$405,743.88, showing an increase of \$14,321.76 as the result of the year's operations.

7. *Transactions*.—The Deposits and withdrawals during the year numbered 27,399, and 20,773 respectively, showing an increase of 2,628 on the figures for 1907.

8. *Withdrawals by Telegraph.*—The withdrawals under this Head, show a marked increase over the previous year, the figures being 200 applications for a total sum of \$12,777.84, as compared with 156 applications for \$6,903.46 in 1907.

9. *Analysis of Accounts.*—Of the 13,606 accounts at the close of the year, no fewer than 7,526 are for amounts under \$5, and 11,867 are for sums under \$50. These figures show to what an extent the Post Office Savings Bank is used, especially in the country districts, for the saving of small sums which, otherwise, might have been frittered away.

10. *Nationality of Depositors.*—The amount at credit of the different classes of depositors at the close of the year, exclusive of Dormant Accounts, was as follows :—

East Indians	... \$180,325.62
Portuguese	... 32,483.87
Chinese	... 4,088.31
Creoles and Others	... 187,917.98

These figures show an increase of \$6,532.69 at credit of East Indians, and \$7,419.61 at credit of Creoles and others, as compared with the figures for 1907.

11. *Investment Account.*—At the commencement of the year, the amount at credit of the investment account was \$360,074.80. This amount has been increased to \$390,074.80 by the addition of \$30,000, which was paid over to the Receiver General in 1907, but was not invested until 1908. A further sum of \$10,000 was paid over to the Receiver General during the year under report for investment.

12. *Examination of Pass Books.*—The Pass Books examined and compared with the Ledgers at the Head Office during the year number 3,457, and I am pleased to report that with the exception of a few clerical errors, no serious discrepancies were discovered.

13. *Transfers Abroad.*—There were 11 transfers for \$5,414.36 from the colony to the United Kingdom, and 5 transfers for \$1,772.48 from the United Kingdom to British Guiana.

14. *Audit.*—The Auditor's report on the examination of the books for the previous year was very satisfactory. He expressed himself as being pleased to bear testimony to the correct and neat manner in which the office work had been performed by the staff for the period under examination.

15. *Staff.*—The Officers of the Bank have, as usual, performed their duties in a very satisfactory manner. Mr. F. Agard, the Superintendent, was absent on leave from the 12th June to the 31st December, 1908, his duties were most efficiently discharged by Mr. R. N. Gilchrist.

I have the honour to be,

Sir,

Your obedient Servant,

A. EVELYN,
Acting Postmaster General.

The Honourable
THE GOVERNMENT SECRETARY.

SUPREME COURT OF BRITISH GUIANA.

LIMITED JURISDICTION.

THIS 29TH DAY OF OCTOBER, 1909.

HASTINGS.

versus

BUGLE & CO.

The sole point in this case is that of agency. The evidence does not establish the facts that Van Lange was the agent of the defendant Company, and judgment must therefore be entered for the defendant with costs.

M. J. BERKELEY, J.

THIS 4TH DAY OF NOVEMBER, 1909.

JOSEPH *et al*,

versus

HIGGINGS.

It is admitted that the levy on this property cannot be held to be good and it is equally clear that the joinder of de Silva as a plaintiff is incorrect he not having obtained Letters of Decree. The opposition therefore must be held to be just and legal. The defendant must pay the cost of these proceedings save and except such costs as may have been occasioned by such joinder of de Silva as a plaintiff which must be paid by the plaintiff.

M. J. BERKELEY, J.

THIS 5TH DAY OF NOVEMBER, 1909.

CORREIRA

versus

JUMMIDASS.

In this action, the plaintiff seeks to recover \$250 as damages for false imprisonment.

Defendant admits in his evidence that when plaintiff came to the station he locked him up.

The proceedings before the Magistrate show that he was charged with larceny and that the charge was withdrawn.

The defence has not satisfied me, either that a felony had been committed or that he had reasonable ground to suspect that the plaintiff had been guilty of larceny.

Judgment for plaintiff for \$80 and costs.

M. J. BERKELEY, J.

DILMOHAMED

versus

NASSIBUN.

The plaintiff opposes the sale at execution of a piece of land measuring 50 roods in width by 400 roods in depth, being part of the upper one-third of Plantation Best Coffee Land situate on the west bank of the Canje creek.

The action was brought to obtain the decision of the Court as to what passed by the Letters of Decree whereby the father of the opposer acquired Best Coffee Land "save and except a certain portion of said estate sold by Walraven Daly as shown in a diagram by John Peter Frass, bearing date 9th

February, 1883, and also save and except the northern one-third transported to Jungry, no buildings thereon." According to the diagram produced certain portions of the estate, including the portion now opposed, are tinted pink, and across one section are the words "Sold by Walraven Daly."

The tinting would indicate that the portions so tinted came within the terms used, and were excepted.

I have referred to the original plans and find that there was a Walraven as well as a Daly, two distinct persons who owned the portions so marked, and tinted, and sold out, transporting to various persons.

This being so, there is no doubt that the exceptions in the Letters of Decree include the portion now opposed. I therefore declare the opposition unjust, illegal and unfounded, and hold that the land the sale of which is now opposed was excluded in the Letters of Decree.

As the action was in the nature of a friendly suit each party will bear his own costs.

JOHN E. HEWICK, J.

APPELLATE JURISDICTION.

THIS 5TH DAY OF NOVEMBER, 1909.

D. BOURNE AND C. BOURNE, Appellants,

versus

LANCE-SERGT.-MAJOR HOLDER, Respondent.

This is an appeal from a conviction by a Magistrate of the Berbice Judicial District, who sentenced the appellants to six months' imprisonment with hard labour on a charge of stealing and carrying away a cream steer of the value of \$24.

The reasons for appeal are:

1. That the decision is erroneous in point of law:

(a) Because there is no evidence connecting the defendants with the taking and leading away of the steer on the 4th day of August, or any time with felonious intent.

(b) Because it was proved that the defendants possession of the steer on the 6th day of August, was by the consent of the owner under an agreement;

(c) That larceny of a steer was not proved against the defendants.

2. That the decision is altogether unwarranted by the evidence in like manner as if the case had been tried by a jury there would not have been sufficient evidence to sustain the verdict.

According to the evidence before the Magistrate the appellants were seen on the 4th August, chasing a cream ox, the property of one Jumeer—one of the appellants had a rope and the other a cutlass.

The loss of the animal was reported to the police by the owner.

On the 6th August, Christopher Bourne told Jumeer he knew where the ox was grazing, he would bring it back if \$11 were paid. Jumeer agreed to give \$5 and wished to go to the place where the ox was. This was objected to by Christopher Bourne on the ground that he did not wish anyone to see the place. The next day both the appellants took the steer (ox) to Jumeer's pen.

The ox was taken by the owner to the Police Station and the appellants were arrested; and David Bourne said: "The truth is, we had two animals tied in the bush. We have given one up to Jumeer for \$5, the other still tied. Christopher Bourne said, 'Three tied there and two still there.'"

"David Bourne went up with a Police Constable to show him, but they returned without any, couldn't find any."

The Magistrate, in his decision, said the evidence clearly established possession of the animal on or about 4th August, and that these facts are or may be capable of an innocent explanation; but as none was offered he might fairly draw the inference that an innocent explanation could not be given.

From this it would appear as if the Magistrate had in his mind the section in the Summary Conviction Offences Ordinance which deals with unlawful possession—especially as he did not in so many words find that the taking was with felonious intent. The securing of the animal was evidence that the appellants knew it was the property of another. The offer to restore it on payment of a sum of money would not purge the taking of the property of another if such taking was with a felonious intent (*Russell on Crimes*, Vol. III, §2).

The facts adduced were sufficient to justify a conviction on the charge. The reasons given by the Magistrate may well be taken to mean that the possession was unlawful as the result of a felonious taking, and he was justified in so finding.

The appeal is therefore dismissed with costs.

JOHN E. HEWICK, J.

RAMBARRAN, MACKAYA, SENARAIN, WILLIAM PUTTY AND BILGOM, Appellants,
versus

WILLIAM FRANKLIN, Respondent.

This is an appeal from the decision of the acting Magistrate of the Berbice Judicial District who convicted the appellants on a charge of feloniously stealing from the person of one Beefia, four pairs of silver bracelets of the value of \$7 68 and sentenced Putty, Rambarran, Mackaya and Senarain to six months' hard labour each, and Bilgom to be detained at Onderneeming Industrial School till 24th April, 1914, one other defendant in the Court below, Chutram, was discharged on his father undertaking that he be of good behaviour.

The reasons for appeal are:

1. That the decision is erroneous in point of law:—
(a) Because the offence of larceny from the person was not proved against the defendants, there being no evidence of taking and carrying away of the goods mentioned with the feloniously intent.

2. That the decision is altogether unwarranted by the evidence, in like manner as if the case had been tried by a jury there would not have been sufficient evidence to sustain the verdict.

The evidence before the Magistrate was that Beefia was walking at night with one Peter Earle, with whom she lived, when they were met by the six defendants. Putty assaulted Earle, and then held Beefia by her right arm; Rambarran held her left hand and Mackaya held her dress. Earle, after saying "Leave the coolie girl," ran away. Putty, Rambarran and Mackaya dragged Beefia into the bush, the other defendants threatening her that if she "hollered" they would kill her. Putty and Rambarran threw Beefia on the ground and Rambarran had connection with her. Putty and Rambarran then took off the bracelets, the subject of the charge, from her hands, the others looking on. Earle returned with one Williams and the defendants ran away.

Witnesses for the defence were called to prove an *alibi*, but the Magistrate, in his reasons for decision, says he believed the evidence for the prosecution and disbelieved that for the defence, and that he considered the joint offence had been established against the defendants.

There was no question on the evidence, if believed, that Putty and Rambarran were guilty of the offence charged.

As to the other defendants, the question for the Magistrate to decide was whether there was a common original design to steal from the person, and whether the other defendants assented to and assisted in such stealing from the person. (*Reg. v. Price & ors.*, 8 Cox, 96, Byles, J.)

There was evidence of another offence, in the commission of which all the defendants apparently assisted or assented, but there was no evidence of their being concerned in or even knowing of the larceny from the person.

I affirm the conviction of Putty and Rambarran, but quash the conviction against Senarain, Bilgom and Mackaya, and annul the order made in the case of Chutram.

No costs.

LIMITED JURISDICTION.

THIS 5TH DAY OF NOVEMBER, 1909.

TAT

versus

MANSON HING.

In accordance with the order of the Court the accounts marked A, B, C, D and E, were filed on the 4th June, 1909, by the defendant and on the 18th of the same month the plaintiff filed his objections thereto.

Mr. Cox, who appeared in behalf of the plaintiff, objected to the further account marked F which was filed by the defendant on the 29th September, and after hearing Mr. Laurence, counsel for the defendant, I upheld this objection (Order XXIX, Rule 4.)

In paper (1) the plaintiff sought to charge the defendant with various sums alleged to be short credited in his account A. The first of these was \$15,683 41 and it was submitted that evidence should be allowed to show that the amount \$87,423 00 found by the judgment of the Full Court to have been paid for the Lombard Street business included certain other businesses. In the decision attached hereto I refused to allow evidence on any point which would tend to upset such finding. This sum was therefore allowed.

The second sum (\$1,026 13) as well as the third (\$1,400) were waived by plaintiff.

The fourth (\$700) was, after evidence had been taken, allowed.

The fifth, including \$1,100 Bartica, \$700 Anna Catharina, \$1,800 High Street, was next considered. The auctioneer's account showed that Bartica property sold for \$1,893 subject to auctioneer's expenses. I found that defendant sold Anna Catharina for \$450 and that although High Street sold for \$1,800 this sum included certain articles which would properly be regarded as belonging to defendant and which were valued at \$100 reducing the amount to \$1,700. These sums, viz., \$1,893, \$450 and \$1,700 were therefore allowed subject to auctioneer's charges in respect of the first. From the total of these 3 amounts, viz., \$4,043 is to be deducted, \$2,400 credited in account A which reduces the sum short credited to \$1,643.

The sixth (\$96 rent of High Street property) was reduced to \$84.

The seventh (estimated value of stock, &c., amounting to \$7,930 92) was shown by account sales to have been sold as under and allowed accordingly:—

Bartica Stock ...	\$ 3,103 31
Black Creek ...	483 75
Groete Creek ...	198 94
Premises, &c., of the last 2	901 00
	<hr/>
	\$ 4,687 00

In paper (2) the plaintiff objected to certain items overcharged in defendant's account B, viz., \$1,400 and \$5 26. These, however, were both waived.

In paper (3) the plaintiff objected to certain items overcharged and others improperly charged in defendant's account C.

The following shows the result arrived at.

Waived.	Disallowed.	Allowed.
\$ 93 64	\$ 100 00	\$ 100 00
461 82	15 00	100 00
24 12	3 60	151 46
4 56		231 87
55 44		
8 00		\$ 583 33
13 00		
22 68		
4,000 00		
129 33		
13 33		
156 43		

In paper (4) the plaintiff objected to similar charges in defendant's account D.

The following is the result arrived at:

Waived.	Disallowed.	Allowed.
\$ 335 71	\$ 10 00	\$ 10 00
180 00	10 00	240 00
452 13	960 00	1,000 00
		100 00
		1,200 00
		700 00
		300 00
		589 97
		133 34
		720 00
		1,440 00
		1,440 00
		<hr/>
		\$ 7,873 81

The eighth amount under the head "allowed," viz., \$589 97, represents the difference between \$1,316 23 claimed by defendant and \$726 26 deposited to by Mr. Colvin, the Accountant of the B. G. Bank, as the amount of interest money actually paid.

At the request of Mr. Laurence I note that I again refuse to admit evidence which might tend to affect the finding of the Full Court.

The ninth amount \$133 34 represents the actual sum allowed on \$266 67 objected to.

The defendant's accounts therefore work out as follows:

A	Short-credited	...	\$ 22,797 41	less
	Auctioneer's expenses re Bar-tica property	...	583 33	
C	Over-charged	...	7,873 31	
D	"	...		
			\$ 31,254 05	add
	balance found by defendant		3,766 55	
			\$ 35,020 60	

Amount therefore payable by defendant to the plaintiff is \$17,510 30.

Mr. Laurence admits that the purchase money has been paid.

With this finding, I refer the matter to the Full Court for decision.

M. J. BERKELEY, J.

TAT
versus
HING.

The Full Court has found in its judgment that the sum of \$87,423 was the amount agreed on as the purchase money of the Lombard Street businesses only. I am not prepared to disturb this finding, nor do I consider that its competent for this Court to take evidence which, in the opinion of counsel, may tend in this direction. This is the only point argued before the Court to-day, and the further taking of accounts is adjourned *sine die*.

By COLONEL G. C. DERINZ,
Commandant Local Forces,
Headquarters, Georgetown,
17th November, 1909.

MOBILIZATION.

1. The Governor has decided that advantage is to be taken of the presence of H.M.S. "Indefatigable" in the port to test the Mobilization of the Local Forces, Captain Berrett, R.N., having very kindly arranged for an attacking force to be landed for that purpose and having also consented to superintend the operations.

The following Tactical Exercise will therefore be carried out:—

1. Diplomatic relations have been broken off with the Country of X.Y.Z.

2. Information has been received that a Cruiser conveying a force of about 400 troops has been des-

patched from the fleet of that country to attack Georgetown.

3. From information on hand it is unlikely that this attacking force can arrive under 48 hours.

4. The "Precautionary Measures" of the Defence Scheme will be put into force, Officers, N.C. Officers and Men of the Local Forces are hereby notified that they are to hold themselves in readiness for Mobilization upon the receipt of definite information of the approach of the enemy, and upon the "Alarm Signal" being given they will proceed at once to their "Rendez-vous."

5. It is hoped that every available member of the Local Forces (including the Reserve) will respond to the call to arms so that the exercise may be thorough and the landing of a force from H.M.S. "Indefatigable" not rendered nugatory.

SUPREME COURT OF BRITISH GUIANA.

COUNTY OF DEMERARA.

GENERAL JURISDICTION.

THIS 30TH DAY OF OCTOBER, 1909.

E. E. KING,

versus

F. E. KING.

This is an application on behalf of the plaintiff for further and better particulars of the defence, and counter-claims to be delivered within four days after order as to

(a) The dates when and the names of the women with whom the plaintiff is alleged to have committed adultery and the dates when the plaintiff made the alleged admissions to the defendant (par. 6);

(b) The dates when the plaintiff is alleged to have insulted and abused the defendant (par. 8);

(c) The dates when the plaintiff alleged insults, threats and cruelty took place.

It is further asked that the defendant be precluded from giving evidence in support of the paragraphs named if the said particulars are not delivered within the four days' and application is also made for an extension of the time for delivering plaintiff's reply to ten days after the order on the application or, delivery of the said particulars whichever shall be the last.

The costs of the application are also claimed.

An order was made on the 12th of June last directing further and better particulars to be given on the points named on the application.

Certain particulars were given, but they are said not to be sufficient—they are as follow:—

1. The admissions referred to in paragraph 6 of the defence were made verbally at Bank Hall, in the island of Wakenaam. The defendant is unable to give particulars of the names of the women and the dates when the plaintiff committed adultery as alleged in paragraph 6 of the defence and repeats that the names are known to the plaintiff and unknown to the defendant.

2. With regard to paragraph 7, the defendant says that the plaintiff got intoxicated at Bank Hall, in the island of Wakenaam, frequently every month in 1907, and up to the month of June, 1908.

3. As to paragraph 8, the defendant says that it was at Bank Hall aforesaid in the presence of her servants Sarah Paul and Abdul Summart that the plaintiff insulted and abused her.

4. The place where the alleged insults and threats and cruelty took place (referred to in paragraph 9 of the defence) is at Bank Hall aforesaid when the defendant was often throttled and beaten by the plaintiff.

5. The defendant is unable to furnish the dates required in paragraphs 6, 7, 8 and 9 of the defence as she took no particular note of them.

In support of the application the case of *Hartopp v. Hartopp and Cowley*, 87, L.T., p. 188, was cited, and the judgment of Collins, M.R., was relied on.

In that case further and better particulars were ordered with the result that the petitioner gave the following—stating that from the facts then within his knowledge he was unable to give further and better particulars—

1. Between the 22nd day of April, 1901, and the 28th day of February, 1902, the respondent was residing principally at the cottage Gaddeby, near Melton Mowbray, in the county of Leicester, and during the same period the co-respondent was residing at Baggrave Hall, near Melton Mowbray aforesaid, and during this period, during the times they were residing respectively at the above addresses, the co-respondent was in the habit of visiting the respondent at the cottage Gaddeby aforesaid, nearly every day, frequently staying to dinner alone with her, and was in the habit of seeing the respondent in her bedroom and boudoir and remaining alone with her for hours.

2. On several occasions during the above period, the dates of which cannot be fixed, after the respondent and co-respondent had been hunting and they had returned to the cottage Gaddeby aforesaid the respondent and co-respondent were in the front bedroom alone.

3. The visits were so frequent that the witnesses are unable to fix the dates.

4. The respondent and co-respondent were during the above period frequently out driving and riding together.

5. The Court will be asked to infer that adultery has been committed habitually during the above period.

Collins, M. R., in his decision in which Stirling and Cozens-Hardy, L. J. J. concurred, said: "I am of opinion that the particulars in the case are too vague—they really are not particulars. The petition alleges that from the month of April, 1901, down to the month of February, 1902, the lady was visited almost daily by the co-respondent and committed adultery with him." It is on that paragraph that particulars were ordered. The particulars furnished simply say in effect that the respondent and co-respondent were constantly meeting during that time and were in the boudoir and bedroom together. That is not a compliance with the order, and is in no sense giving particulars. It must be possible, and the petitioner is bound to take all the necessary steps to enable him to elicit from the witnesses he intends to call in connection with the allegation, and, to state something more approaching particulars than those he has furnished. I do not regard what

he has already furnished as particulars. I am quite certain that by proper efforts on his part he will be able to furnish some statements more resembling particulars than those which he has already given. I need not say anything more as to specific matters because I desire to leave that at large; but the petitioner must give the best particulars he can extract from the different witnesses upon which he relies to prove his case. Therefore, I am of opinion this appeal must be allowed."

In that case there was a named co-respondent, so the question of the name was not dealt with, but the principle laid down in that decision is that every effort must be made to supply full particulars; that is, the best particulars that can be extracted from the different witnesses upon whom reliance is to be placed to prove the case.

The particulars given in this case are too general, and I have no doubt that further and better particulars can be given.

I, therefore, direct the defendant to furnish within seven days of the order the further and better particulars applied for under (a) (b) and (c). If the defendant does not furnish the said particulars within the time named she will be precluded from giving evidence in support of the paragraphs named. I extend the time for delivering the plaintiff's reply to ten days after delivery of the particulars, or if the particulars are not delivered to ten days after the expiry of the time given for such delivery of further and better particulars.

As to the question of costs it has been urged that no copy of the order having been served on the defendant she should not be made to pay the costs, and further she has no means. On the other side it was argued that as Counsel was present when the order was made there was no necessity to serve it and further that the furnishing of partial particulars was a waiver of the right to a copy of the order.

In the case of *Carstairs v. Carstairs* (33 L.J.P. and M., page 170) where a wife after a *decree nisi* of dissolution of marriage became entitled to £500, which was the only property she possessed, the Court refused to order that a part of this should be applied to the repayment of costs incurred by the husband in the suit although she had been guilty for gross misconduct and had increased the costs of the suit by an unfounded counter-charge against the husband.

In *Wilson v. Wilson*, 41 L.J. P. and M., page 74, after a *decree nisi* was pronounced Lord Penzance directed the Registrar not to allow the costs incurred in getting up unsatisfactory evidence of the husband's adultery.

Adopting the course pursued in those cases although this is an interlocutory matter, I make no order as to costs, leaving it to be decided by the Court after the case is tried.

JOHN E. HEWICK, J.

GENERAL JURISDICTION.

THIS 8TH DAY OF NOVEMBER, 1909.

In re application of JAS. BANNISTER.

This is an application by one James Bannister for a writ of *habeas corpus*. Following the previous practice which agrees with the English practice the whole matter has been argued once for all on the rule. (*R. v. Ganz*; 9 Q. B. D. 93; *R. v. De Portugal*, 16 Q. B. D. 492). All the grounds alleged in the application filed save those hereinafter mentioned were abandoned.

The first ground relied on is that the applicant was arrested on a warrant issued by a Magistrate on a charge of the murder of one Harvey but the evidence shows that the name of the deceased was Gaburet Gilbert. This ground is unsustainable. A warrant (not in the form given in the schedule to the Extradition Act 1870) appears to have been issued by a Magistrate without any precedent order of the Governor for the arrest of the applicant, on the charge of having murdered one Harvey, but all the documents received from Dutch Guiana and the depositions give Gaburet Gilbert as the name of the deceased. The Magistrate's warrant of commitment which sufficiently follows the form given in the schedule already mentioned does not state the name of the deceased and the validity of that commitment is in no way affected by the mistake in the provisional warrant of arrest.

The second ground is that the Governor of Suriname by his letter of 15th August, 1909, applies for the extradition of Jas. Bannister as being charged with the crime of manslaughter and robbery with violence, but Jas. Bannister has been committed to prison to await surrender on a charge of murder. The Governor's letter enclosed a warrant of arrest and other documents. The Magistrate is not required by the Ex-

tradition Act, 1870, to consider the terms of the requisition for surrender, but under section 10 of that Act is to have regard to the foreign warrant authorising the arrest of the criminal and to the evidence produced before him. In the present case the foreign warrant though not using the term murder describes the offence in such manner as to show that it was the offence known to English law as murder, and the evidence produced, it is not contested, would have justified the committal of J. Bannister for that crime if committed in this colony, and that crime is an extradition crime. Under these circumstances, we think, the decisions in *ex parte Terraz*, (4 Ex. D. 63), *R. v. Jacobi* (45 L. T. N. S. 595), *Ex parte Piot* (15 Cox C. C., 208) and *Reg. v. Ganz* (9 Q. B. D. 93) show that the second ground for the release of J. Bannister cannot be maintained.

The third ground taken is that illegal evidence was admitted by the Magistrate, viz., translations of the deposition and warrants, not duly authenticated under the Extradition Act, 1870. It is not contested that the original depositions and warrants were put in evidence and were duly authenticated. This being so, the proceedings were not invalidated by the alleged translations attached thereto not being similarly authenticated. It may be added that the evidence of Chief Inspector Brunnings, is that the translations are correct, and Section 73 of the Evidence Ordinance, 1893, did not, in our opinion, oblige the Magistrate to have the depositions, when put in with these translations, translated a second time by an interpreter then and there sworn to interpret.

The fourth ground is that the depositions put in evidence were not read out or shown to J. Bannister. This objection is, we think, unavailing in face of the Magistrate's affidavit that J. Bannister, on being offered the opportunity of reading the depositions, stated that he did not wish to see them.

The fifth ground is that J. Bannister was not informed by the Magistrate that he had fifteen days from the 24th September, within which to apply for a writ of *habeas corpus*, as required by law. The Magistrate's affidavit, confirmed by the words of his written decision, establish that he duly informed J. Bannister in accordance with Section 11 of the Extradition Act, 1870.

The sixth and last ground relied on is, that the warrant of detention issued by the Magistrate on the 24th September was illegal, the Magistrate having previously on the 8th September finally decided the same matter and issued a warrant of detention, and the Court having on the 28th September set aside the said warrant of the 8th September and ordered the discharge of the said J. Bannister, he cannot legally be detained under the warrant of the 24th September. It appears that the Court on the 28th September had before it the second warrant issued on the 24th and did not order the discharge of J. Bannister absolutely, but only set aside the warrant of the 8th September, and released him from detention thereunder. It also appears that the application on which that order was made was filed on the 20th September, at which time the extradition proceedings in which the warrant of the 24th September was issued were pending. The previous proceedings had been begun, carried on and completed before the Magistrate without his receiving any order or instruction from the Governor in accordance with the Extradition Act, 1870, and such proceedings were, in our opinion, null and void, and they being null and void, we see no reason why fresh proceedings could not be taken and a valid warrant of detention obtained, and that warrant being in the hands of the Gaoler on the 28th September, and the order of the Court then given being limited to the warrant of the 8th September, the applicant was not entitled to be set free on the 28th (*ex parte Cross*, 26 L. J., M. C. (201) : *In re Phipps*, 11 W. R. 330). The mode in which the second investigation was conducted cannot, we think, be held illegal (*ex parte Bottomly* (1909) 2 K. B. 14). The warrant of the 24th September is, in our opinion, still in force, and James Bannister is not now entitled to be discharged. The application is therefore refused.

LIMITED JURISDICTION.

THIS 13TH DAY OF NOVEMBER, 1909.

LEANDER

versus

OTTO.

In this action the plaintiff seeks to recover from the defendant damages for an alleged obstruction of his right of way, and for an injunction to restrain the

defendant, his servants or agents from continuing or repeating such obstruction.

The evidence for the plaintiff shows that the defendant is in possession of the east quarter of lot 83, section B, which bounds on the public road called middle walk in Buxton Village, east coast, Demerary. That the plaintiff who has lived on the east centre quarter which is immediately aback of the east quarter for 6 years although having been in possession thereof 2 years previously purchased this centre quarter at execution sale on 19th September, 1904, but did not obtain Letters of Decree, until 11th November in this year.

That from the middle walk public road a path about 6 ft. in width runs along the southern end of the whole lot by which ingress and egress have been obtained by plaintiff and his family as well as by the witness Edwards who has occupied the remaining half of this lot which is aback of plaintiff, since 1893.

That on 22nd March, 1909, the defendant dragged away certain planks which had been placed some years ago as a bridge over the trench dividing the said lot from the public road and had also erected a barrier along the width of the land in his possession thus cutting off access to the public road through this land.

That for some 27 years past or thereabouts the occupiers of this lot so used this path.

That the only other means of ingress and egress is by trespassing along the railway line for a distance of about 48 rods.

The defendant does not call witnesses but his Solicitor, Mr. Abraham, submits *inter alia* (1) that defendant not having been proved to have transported judgment cannot be given against him, (2) that plaintiff was not legal owner until 11th November, 1909, when he obtained Letters of Decree, and that, therefore, he could not complain of acts done on 22nd March, and (3) that inasmuch as ingress and egress could be obtained by going along the railway line there arose no right of way by necessity.

With regard to (1) the fact that the defendant is in possession and has caused the obstruction would enable the plaintiff to obtain the injunction he seeks, if otherwise entitled thereto. (2.) It is true that the plaintiff was not legal owner on 22nd March, 1909, but having purchased on 19th September, 1904, he could on that date have obtained his legal title, and I am of opinion, therefore, that so highly technical an objection cannot prevail. (3.) It is clear that if a piece of land is divided into two or more portions the back portion will retain its right of outlet over the front portion, even although nothing was said about this at the time, for the partition of the land cannot impose a servitude upon the neighbours. (*Van Leeuwen*, vol. 1, p. 297).

I assess the damages at \$30, and grant the injunction asked for with costs.

M. J. BERKELEY, J.

PETAMISING

versus

MONJERIAE.

The plaintiff claims the sum of \$222 on an overdue promissory note made by the defendant in favour of the plaintiff with interest \$7 47 to date and further interest until paid.

The defence is a denial of the making or indebtedness, and a statement that defendant's husband used to subscribe to a box and that while on his sick bed he asked defendant to pay to the plaintiff \$10 a week for eight weeks which she did.

This alleged payment is not pleaded as a set off.

There is a conflict of evidence in the case, but I see no reason for disbelieving the two witnesses who support the plaintiff—one of them wrote the note and both witnessed the signatures; the note was signed by defendant and her husband who is dead.

The note is worded "six month from date I promise to pay." This is a several as well as a joint note (*Byles on Bills*, p. 8).

The promissory note was read over to the defendant who touched the pen as did also her husband.

The promissory note is signed with the X of both defendant and her husband and it was argued that a marksman must hold the pen. No authority was given for this and I know of none.

In face of the absolute denial of the making of the note and the absence, consequently, of any plea of set off, it is impossible for me to hold that any payments, even if proved to have been made, were made against the amount represented by the promissory note. Finding as I do that the defendant did sign the promissory note and that she borrowed the amount represented, and that the promissory note has not been satisfied, I give judgment for the plaintiff for the amount of the promissory note with interest as claimed with costs.

4TH DECEMBER, 1909.

Any person who objects to the execution of the proposed works or to the proportion or manner in which it is proposed to assess either estate in which he may be interested shall, within such period of one month, lodge with the Public Works Department his objections in writing and the grounds on which he bases his objections.

SUPREME COURT OF BRITISH GUIANA.

GENERAL CIVIL JURISDICTION.

THIS 16TH DAY OF NOVEMBER, 1909.

In re Application by MARCEL BARBINS.

This is an application for a writ of *habeas corpus*, or for an order in the nature of that writ, calling on the Inspector General of Police to show cause why one Marcel Barbins should not be set at liberty.

It appears from what is stated in the application that Barbins is a Frenchman by birth, that an order duly published in the Gazette on the 27th April, 1909, was made by the acting Governor under the Aliens Ordinance (No. 1 of 1886), requiring him to depart from the colony on or before the 11th May, 1909, the period within which he was to depart being subsequently extended for one month from the 11th May, that on the 15th June, Barbins left the colony but returned on the 22nd July, when he was again arrested and kept in custody for a few hours, that on the 24th July, he was again arrested but on the same day on application to the Court was released on bail being given for his appearance on the 26th to answer the matters alleged against him, that he appeared before the Court on the 26th and no one appeared to urge anything against him, that on the same day he was again arrested, that on the 20th September, an application to the Court for an order directing his discharge on the grounds therein mentioned was filed, that the application came on for hearing on the 28th September, but no order was made thereon, (affidavits being filed which stated that Barbins had been discharged on the 22nd September, and had at his own request embarked the same day for New York) that Barbins was not allowed to land in New York, but was sent back to this colony on the s.s. Guiana, arriving here on the 20th October, that he was not allowed to land here but was removed from the s.s. Guiana, to the s.s. Bendu, and that on the 23rd October, he landed from the Bendu, and was on the 30th October, arrested by the police and still is kept in custody by them.

The first ground on which the application is based is that Marcel Barbins having complied with the order of the acting Governor by departing from the colony, the order was spent and he could not be arrested on his return without fresh proceedings being taken. The order, unlike those made under the English Aliens Act is one to depart only, and not one to depart and remain away, and no punishment could, under section 4 of Ordinance 1 of 1886, now be inflicted on M. Barbins for non-compliance with the order, had he left the colony within the time specified thereby. But section 3 of the Ordinance authorised, in our opinion, the arrest of M. Barbins on his subsequent return to the colony. The

words in that section empowering the Inspector General of Police to cause an alien who has been ordered to depart to be arrested "if he is found within the colony after the expiration of the time limited in such order," if given their natural interpretation would cover the case of an alien found within the colony at any time after the date fixed for his departure whether before he went away or on his return after departing, and we see no sufficient reason for restricting their meaning. *Primâ facie* the reasons which led to an alien being ordered to depart would not be rendered less cogent by the fact that he had gone away and subsequently returned, and the provision of section 5 which authorises an alien being sent away even after he has paid the penalty imposed by section 4 for refusal or neglect to obey the order, strengthens the conclusion that the words quoted from section 3 were intended to give power to arrest and commit to prison for removal in the case of any alien who had once been decided to be an undesirable resident, even if he could not be punished for not complying with the order for departure. The first ground therefore cannot be maintained.

The other grounds relied on are in substance and effect that the applicant being employed as a mechanical engineer and earning an honest livelihood, and there having been no complaint or representation made against his character or conduct, so far as this colony or any other country is concerned, the order to depart was *ultra vires*, and it could not reasonably be held that it is expedient to remove the said M. Barbins from the colony, "for the preservation of the peace and good order of the colony." (Sec. 2). Under section 1 of the Ordinance, the duty of deciding whether or not it is expedient to remove any alien for the preservation of the peace and order of the colony is cast on the Governor, who is required to act on "information given in writing by any person subscribing his name thereto," and under section 6, the Governor is charged with the duty of enquiring into and deciding as to the validity of any reason alleged by the alien against his removal from the colony. In the absence of clear evidence to the contrary (and no such evidence appears in this case), an order having been made for the departure of M. Barbins as an undesirable alien it must be presumed that the acting Governor acted on written and signed information as required by the law. Also from the application filed it appears that M. Barbins himself submitted the facts that no complaint was made against him and that he was earning an honest livelihood and willing to submit to police supervision as reasons why he should not be deemed an undesirable alien whom it was expedient to remove for the preservation of the peace and good order of the colony, but the acting Governor determined that the order for M. Barbins' removal must be carried out and the Ordinance does not empower the Court to review any *bonâ fide* decision arrived at under section 6. We, therefore, think the grounds just considered for applying for M. Barbins' liberation cannot be maintained. The other facts mentioned in the application paper do not affect the question before us in these proceedings. All the reasons urged being insufficient the application must be refused.

COUNTY OF DEMERARA.

APPELLATE JURISDICTION.

THIS 12TH DAY OF NOVEMBER, 1909.

BAGGAREE, Appellant.

versus

ROBERTSON, Respondent.

The appellant in this case was convicted by a Magistrate of the Berbice Judicial District and was sentenced to six months' hard labour, on a charge that he feloniously did steal take and lead away one dark brown steer, the property of I. E. A. Patoir.

The reasons for appeal are :—

1. That the decision is erroneous in point of law :
(a.) Because the evidence for the complainant does not connect the defendant with the alleged larceny.

(b.) Because no larceny has been proved.

(c.) Because *animus furandi* has been negatived by the evidence.

(d.) Because it has been proved that the said steer, the subject matter of the charge, was a stray and was taken by the defendant and one Paultoo (a witness for the complainant) for the purpose of being impounded.

(e.) Because it has not been proved that the taking was with felonious intent.

2. That the decision is altogether unwarranted by the evidence in like manner as if the case had been tried by a jury there would not have been sufficient evidence to sustain the verdict.

The evidence given in the Court below showed that the appellant and another man Iapah (who was discharged after the hearing and two others were seen at 6 p.m. on the 29th July with ropes going in the direction of the rice-fields aback of Rosehall where Paultoo had planted rice. Later on Baggaree and Iapah were seen by one Moses Fraser driving an animal. When asked where they came from they said they come from Paultoo's rice-field and were impounding the animal and were going to appraise the damage in the morning. The animal, the subject of the charge, was tied to a soursop tree. Moses Fraser called Rural Constable Graham at 11.50 p.m. In consequence of this Graham accompanied Fraser to the back of Dunn's house where two men Fingall and Cort were watching a dark brown steer which had a piece of rope round

its horns. The animal was caught and was taken to the Police Station. The appellant was arrested and in his presence Paultoo denied authorising him to go and catch cattle in his Paultoo's rice-bed.

Fingall said on the 29th July he saw appellant on the parapet of the side-line trench. Later at 11.12 p.m. he saw a cow come out of appellant's yard. One half of the gate was opened by appellant who after doing so, apparently, went back into his yard. Two short pieces of rope which seemed to have been cut were on its horn. Cort was awakened and Fraser who was there called Graham and the animal was caught. Paultoo come out to them and in his presence the appellant said the cow had been caught in Paultoo's bed and they were going to appraise the damage in the morning; the same account that was given to Fraser.

Dunn said that he was called by the appellant on the 29th July as he was passing, that the appellant told him he had a heifer aback of Port Mourant which he offered to sell. Dunn agreed to buy it; appellant borrowed a rope and one shilling. About midnight Dunn saw R. C. Graham, Fingall, Fraser and others with a steer—the subject of the charge. The next morning Dunn went to the appellant who said “Fraser met me with the steer about 11 p.m.” “He told me it was Mr. Patoir's cow. I asked for rope—he said he had cut the rope and I told him they had caught the steer in my yard the night before. The particular piece of rope is mine. I give it to the police.”

In cross Examination the witness said his wife woke him, he saw Cort and the others as well as the cow but did not go out and by the Court said the arrangement about the cow was made at 7—8 a.m. on 29th July, 1909. That would be before the animal, the subject of the charge, was caught.

Paultoo, who was called for the prosecution, said he took appellant aback to the rice-bed (where there were evidently two animals) one was caught a bull—this was tied on the side-line dam. Paultoo denied telling the Sergeant-Major that he never authorized anyone or appellant to catch cows in his rice-field and said they intended to take the cow to the pound; it was led to appellant's gate. Later on appellant told him the cow had got away.

The Magistrate, in his reasons for decision, said “I believe the evidence for the prosecution with the exception of that given by Paultoo and am satisfied that Baggaree did on the night in question take the animal. Both from his behaviour that night and from his demeanour in Court, I do not believe his story as to impounding the animal or going aback for the purpose of impounding cattle.”

There is no specific finding that the animal was taken with felonious intent and if the Magistrate believed the evidence for the prosecution, as stated, it included the evidence of Fingall and Moses Fraser, both of whom were told at the time when appellant was seen with the animal that it was taken for the purpose of being impounded and that the damage done by it to Paultoo's rice-field was to be appraised in the morning.

The point is whether there was sufficient evidence before the Magistrate that he could reasonably conclude therefrom—that is without drawing an inference which the law deems unreasonable—that the particular fact in issue had been established *Quinta v Swain*, 2 L.R. 1882.

In this case the evidence pointed to the fact that the animal was taken for causing damage to a rice-field and not then that it was taken with a felonious intent. There was in fact no evidence from which a charge of larceny could reasonably be found proved.

I quash the conviction with costs.

JOHN E. HEWICK, J.

THIS 13TH DAY OF NOVEMBER, 1909.

MCLEOD, Appellant,

versus

NAJOO, Respondent.

This is an appeal from the decision of a Magistrate of the Berbice Judicial District, who non-suited the plaintiff on a claim for \$100 damages.

The reasons for appeal are :

1. That the decision is erroneous in point of law ;

Because at the hearing of the case there was a question of law raised by the defence which should have been dealt with and if the same were not upheld the Magistrate should in justice take the defence.

2. That an illegality affecting the merits of the case has been committed in the course of the proceedings in the case because

(a) Taking the defence stated at the commencement of the hearing and the unquestioned proof proffered by the plaintiff the Magistrate was bound

to call upon defendant to establish her stated defence and to rebut the evidence of the plaintiff and his witnesses.

(b) Because notwithstanding the plaintiff fully established his case the Magistrate without calling for the defendant's defence non-suited the plaintiff.

The damages claimed were for breach of contract in neglecting to deliver to plaintiff three heads of cattle bargained and sold by the defendant to the plaintiff for the price of \$32 for the purpose of his business as a butcher.

The defence was a denial of the bargain and sale and an allegation that one head was sold and delivery given—this delivery was admitted in evidence.

No point of law, according to the copy of the proceedings, appears to have been taken and the first reason for appeal was not argued.

With regard to reason 2, the question as to whether the plaintiff established his case or not was a matter for the Magistrate to decide and in his reasons for decision he says plaintiff has failed to make proof of his claim to my satisfaction. He states the receipt for \$3 was a duplicate receipt (original destroyed) for a steer for which he ultimately received a heifer. His witness Barker states the \$3 was a payment in advance for the remaining 3 head of cattle. Plaintiff admits failing to catch the black heifer according to alleged bargain. His witness Rugobeer states no bargain was made.

There was no illegality affecting the merits of the case as alleged in the reasons for appeal.

I dismiss the appeal with costs.

GENERAL JURISDICTION.

THIS 19TH DAY OF NOVEMBER, 1909.

In re Application of G. HICKEN, for a rule against Stipendiary Magistrate ANSON and MARY M. CHUNG.

In this case a rule nisi was granted calling on the Magistrate and Mary M. Chung to show cause why the Magistrate should not hear and adjudicate upon a plaint lodged in the Magistrate's Court civil jurisdiction by the Town Clerk of New Amsterdam for the recovery from Mary M. Chung of \$240 in aid of the Town Funds as a penalty for breach of section 55 of Ordinance 8 of 1891.

Various reasons have been urged by the Counsel shewing cause why the rule should not be made absolute, but it is unnecessary to consider any save the last, viz.—that the penalty imposed by section 55 of Ordinance 8 of 1891, cannot in view of sub-section (2) of that section and of sections 211 and 213 of the same Ordinance be recovered by civil proceedings before a Magistrate, but if recoverable under sub-section (1) of section 55 must be recovered by complaint before a Magistrate in his summary criminal jurisdiction, and if recoverable under sub-section (2) of section 55 must be recovered by summary, i.e., parate execution.

In the present case proceedings appear to have been taken under section 55 (1). Section 211 (2) provides that all fines, penalties and forfeitures "incurred under the Ordinance not exceeding \$240" may, unless the contrary is expressly provided, be "sued for and recovered before the Stipendiary Magistrate," who is given full jurisdiction to hear and determine such proceedings, and section 213 enacts that "every proceeding before the Stipendiary Magistrate under any of the provisions of this Ordinance," shall be governed by the Ordinances which regulate proceedings before the Magistrate in the exercise of his summary jurisdiction. The wide and sweeping terms of section 213, in our opinion, cover proceedings for the recovery of penalties like the one in question not exceeding \$240 and require such proceedings to be taken in the criminal jurisdiction of a Magistrate. This view of the matter is confirmed by the considerations (a) *prima facie* the imposition of a fine or penalty or forfeiture by a statute makes the procedure not civil but criminal; (*Mellor v. Denham*, 5 Q. B. D. 467, *R. v. Whitechurch*, 7 Q. B. D. at p. 537, per Brett J., *R. v. Paget*, 8 Q. B. D. at p. 157, per Field J.) and (b) that the Legislature has in section 37 of the Magistrates' Courts Ordinance, 1893, expressly laid down the general rule that the hearing and determination of complaints for the recovery of fines, penalties and forfeitures (which are not specially assigned by statute to the Supreme Court) come within the Magistrates' summary criminal and not their civil jurisdiction, and no reason can be shewn why the Legislature should have intended to make an exception in the Ordinance 8 of 1891.

It is urged that the use of the words "sued for" in sub-section 2 of section 211, and the provision in sub-section 1 that fines, penalties and forfeitures exceeding \$240 shall be recovered by proceedings in

the civil jurisdiction of the Supreme Court indicate that in cases where the proceedings are in the Magistrate's Court they must be taken in his civil jurisdiction. But the proceedings in the Supreme Court must necessarily be taken in the civil jurisdiction, unless the offender be indicted, and the use of the words "sued for" is not, we think, a sufficient indication of any intention on the part of the Legislature inconsistent with the clear provisions of section 213.

It is contended that as the Magistrate did not decline jurisdiction on the ground now taken, the Court should make the rule absolute, but the Court cannot order the Magistrate to hear and determine the plaint lodged in error in his civil jurisdiction, which he has refused to hear, though he may have power to deal with the matter if properly brought before him in his summary criminal jurisdiction.

The rule is discharged with costs.

NOTICE.

ORDINANCE No. 2 OF 1883.

NOTICE is hereby given that it is proposed, for the protection of the district known as Nos. 70 and 71, Corentyne Coast, in the county of Berbice, to strengthen the seven existing groynes and to erect five new timber groynes each 100 feet long, more or less, on the foreshore and at right angles or thereby to the line thereof with 600 lineal feet, more or less, of sheet piling, parallel to the said line of foreshore of the above-named district.

It is further intended to maintain the above-mentioned structures in a proper state of repair for a period of two years after their completion.

The cost of construction, with maintenance during said period of two years, is estimated at \$10,000.

It is proposed to make the two estates Massiah or No. 70 and Little Massiah or No. 71 comprising the said district and the public road through the same, liable to contribute to the cost of execution and maintenance of such works. Copies of a Plan and amended Specification describing the proposed works, of an estimate of the cost thereof and of a statement showing the proportions in which it is proposed to assess the amount to be paid by each of the said divisions have been lodged at the offices of the Public Works Department in Georgetown and New Amsterdam and will be open for inspection of every person desiring to see the same, on every day not being a Sunday or public holiday, from 10 a.m. to 4 p.m. for one month from the date of the first publication of this notice.

In order to meet the cost of executing the above works it is proposed to obtain a loan of \$10,000 from the Government. The repayment of the loan will be spread over a period of 20 years and an annual rate to meet interest and sinking fund charges will be assessed on the district.

Any person who objects to the execution of the proposed works or to the proportion or manner in which it is proposed to assess either estate in which he may be interested shall, within such period of one month, lodge with the Public Works Department his objections in writing and the grounds on which he bases his objections.

Colonial Civil Engineer.

HIS Excellency the Governor directs the publication, for general information, of the Convention for the Exchange of Money Orders between Danish West India Islands and British Guiana, signed at St. Thomas on the 6th August, 1909, and at Georgetown on the 27th day of September, 1909.

In accordance with the agreement of the respective Administrations, the Convention took effect as from the 1st instant:—

Each country shall keep the commission charged on all Money Orders issued within its own jurisdiction for payment in the other, and no charge will be made by either administration for any services performed for the other in connection with the exchange of Money Orders.

Each Administration shall communicate to the other, the tariff or schedule of the fees to be established by it, under the provisions of this Article, and also any subsequent change therein.

ARTICLE 6.

Money Orders shall be drawn only on authorized Money Order Offices of the respective countries, and each postal Administration shall furnish to the other

ARTICLE 7.

Every Money Order and Advice shall contain the name of the office of destination.

ARTICLE 8.

Money Orders shall be issued only on the applicant furnishing the given name, surname and address of the person to whom the amount is to be paid, and his own name and address, except in the case of business firms whose usual designation will be sufficient.

ARTICLE 10.

After the expiration of that period the Advices of unpaid Orders shall be returned to the Administration of the country of origin accompanied by a detailed statement.

ARTICLE 15.

Re-payment of Money Orders to remitters shall not be made until the Advices have been returned and an authorization for such repayments shall first have been obtained from the country of payment. In case of the loss of the original Advice a certificate that the amount has not been paid will be sufficient.

ARTICLE 16.

Should it appear that Money Orders are used by mercantile men in the Danish West Indies or British Guiana, for the transmission of large sums of money, or in case of a great advance in the rate of exchange or other circumstances creating abuses or acting

injuriously to the postal revenue, either country shall be at liberty to increase the commission or suspend the use of Money Orders for a time.

ARTICLE 17.

Within six weeks after the close of each fiscal year, two copies of an account shall be prepared, and transmitted by the Post Office Department of British Guiana to the Colonial Postmaster of St. Thomas, exhibiting, the balance found due on the exchange of Money Orders during the year, one copy of which, after proper verification and acceptance shall be returned to the Post Office Department of British Guiana.

If the account shows a balance in favour of the Danish West Indies, the Post Office Department of British Guiana shall transmit a Bill of Exchange on London, England, or a draft on New York for the amount of such balance at the same time that he forwards the account.

If, on the other hand, the Account shows a balance in favour of British Guiana, the Colonial Postmaster at St. Thomas shall transmit a Bill of Exchange on London, England, for the amount immediately after the acceptance of the Account.

If, pending the settlement of an Account, one of the two Postal Administrations shall ascertain that it owes the other a balance exceeding \$1,000, the indebted Administration shall promptly remit the approximate amount of such balance.

The expense attending the remittance of the balances shall invariably be borne by the debtor country.

ARTICLE 18.

The present Convention shall take effect on the first day of December, One thousand, nine hundred and nine, and shall remain in force until the expiration of a period of one year after the date upon which one of the two contracting Administrations shall have notified the other of its intention to terminate it.

Done in duplicate and signed at Charlotte Amalie, St. Thomas, on the 6th day of August, in the year 1909, and at Georgetown, the 27th day of September, in the year 1909.

versus

DE PAIVA.

The evidence shows that the plaintiff's child, Ruby, was on 20th April, 1909, sent to the Druggist Shop with an elder sister and on passing the defendant's residence his dog was seen chasing the two children and it caught the child Ruby and bit her severely on the leg.

It is not shown that this child or her sister formed part of that crowd of children which was engaged in stoning the cherry-tree in defendant's yard, but on the contrary these two children were going in the opposite direction to the crowd.

The only point is the amount of damages to be awarded. This I assess at fifty dollars. No costs.

In re JOSE COMACHO.

This is an application by the Official Receiver for an order declaring void a certain transport passed on 16th January, 1909, in favour of Nathaniel Sears, of south half lot 262, Queenstown Ward, Georgetown.

Neither the debtor nor the said Sears on both of whom notice of this application has been served appear.

The evidence establishes that the transport was not passed in good faith nor for valuable consideration. The Court therefore declares the same void against the Assignee of the Insolvent Comacho.

ROOPEE.

versus

SEWNAUTH.

The plaintiff in this action claims \$145 due on a promissory note made by the defendant in his favour.

The defence is an admission of the making of the note but a plea of no consideration.

The defendant has failed to satisfy the Court on this point and judgment is therefore entered for the plaintiff with costs.

GENERAL JURISDICTION.

THIS 24TH DAY OF NOVEMBER, 1909.

BEETE, plaintiff,

versus

Executors of J. H. BRATHWAITE, defendants.

The plaintiff claims (a) an account of the dealing and intromissions of the defendants' testator "with the plaintiff's share of the estate of the late William Martin Griffith, in respect of her portion of the said estate received by the said J. H. Brathwaite" and payment of whatever is found owing to her; and (b) a declaration that her brother (the said J. H. Brathwaite) "died intestate in respect of the properties, goods and chattels mentioned in para. 2 of this will, and that she is entitled to her legitimate portion of her late brother's estate."

The phrase "legitimate portion" in the second claim, interpreted strictly is unmeaning in this case, as it is not suggested that an infamous person has been instituted heir and only in that event can a sister of a deceased person claim a legitimate portion. (Grotius II 18. 17). If, however, the phrase be taken to mean the plaintiff's share as an heir *ab intestato* in any property not disposed of by her brother's will, her heirship is not proved by the evidence, there being no evidence that the plaintiff's brother left no descendants surviving him, and if there be any such, they would be his heirs not the plaintiff. It is also in our opinion clear, that even if the words of recital used in para. 2 of Brathwaite's will are insufficient to pass the property therein mentioned the residuary gift in para. 6 of the will includes the property specified in para. 2, and therefore there is no intestacy as to any part of the testator's property. The words of the gift in para. 6 are—"I desire that any other property or anything whatever which is left out in this my last will and testament be given to my wife, Sarah Brathwaite." The words "which is left out in this my last will do not in our opinion mean which is not mentioned, but include all property not otherwise effectually disposed of by the will (cf. Green v. Dunn, 20 Bea. 6, Patching v. Barnett, 28 W. R. 836, 830). The second claim made by the plaintiff, therefore, fails.

As regards the first claim the evidence in our opinion establishes (a) that the plaintiff received from J. H. Brathwaite \$12,000 in two sums of \$10,000 and \$2,000, respectively, on account of her share of the estate of W. M. Griffith; (b) that J. H. Brathwaite received in respect of her share more than \$12,000; though the evidence does not show how much more; (c) that the plaintiff consented to his retaining the surplus over \$12,000 he undertaking to provide by means thereof for her son's completing his medical education in Canada, and in the event of his dying before her son's education was finished to make provision by will for its completion; (d) that J. H. Brathwaite shortly before his death made a will by which certain property was given to the plaintiff and her son, with which will the plaintiff was satisfied; (e) that a few days later J. H. Brathwaite revoked this will and made another like it, save and except that a

property in Lacytown by the first will given to the plaintiff's son was by the second will given to the testator's wife; and (f) that the plaintiff, who was present when the second will was made, expressed no dissatisfaction with it and has since the testator's death accepted the benefits bestowed on her by that will, and has demanded and received the legacy thereby left to her son.

There is no evidence before us establishing that the gifts made to the plaintiff and her son by the second will were of less value than the part of the plaintiff's share in Griffith's estate which was retained by Brathwaite. In deciding whether benefits conferred by a will are given in satisfaction of a legal claim the Court, according to Roman Dutch Law, has to look to the intention of the testator as evinced by the words of the will and the circumstances under which it was made and is not bound by the somewhat artificial rules of English Law. In the present case we are satisfied on the evidence that the gifts made by the second will to the plaintiff and her son were intended by the testator to be a fulfilment of the undertaking into which he had entered and to be in satisfaction of any legal claim the plaintiff had against him in respect of her share of Griffith's estate. The plaintiff therefore could not accept the provisions of that will and at the same time prosecute any legal claim she may have had. On the evidence she must we think be held to have elected to accept the provisions of the second will, and no ground is shown for holding that she can now escape the consequences of such election: she is therefore we think debarred from obtaining what she now claims.

No evidence as already said has been put before us to show that the benefits under the second will the plaintiff has obtained for herself and her son, are of less value than the moneys belonging to her which were retained by Brathwaite. The only witness apparently who could have thrown any light on this point is Mr. McLean Ogle, who was J. H. Brathwaite's co-executor, but he has not been called, nor, we may add, has any satisfactory explanation of his not being called been given.

The action is dismissed with costs.

LIMITED JURSDICTION.

THIS 24TH DAY OF NOVEMBER, 1909.

JOSEPH B. COCKFIELD.

versus

MANOEL GOMES.

The plaintiff claims the sum of \$500 as damages for false imprisonment on a charge of obtaining a bottle of high wines by false pretences.

The defence is a denial of all the allegations in the statement of claim and in the alternative a plea of justification defendant also stating that the action should have been brought in the Magistrate's Court.

In reply the plaintiff alleges that he did not falsely pretend he was paying but did pay for the high wines ordered and further that the defendant acted maliciously according to the evidence for the plaintiff he went into defendant's shop at Fellowship on the 31st May, the day of the Marathon Race, with some friends and while there ordered a quarter bottle of high wines for which he paid one shilling. After the contents were consumed he asked for three cents worth of tobacco and a box of matches giving a sixpenny piece in payment and receiving back as change a fourpenny piece a dispute arose as to the payment for the high wines and the plaintiff refused to pay again but some of his friends offered the amount asked in order to avoid any disturbance.

The defendant refused to accept the money from plaintiff's friends and went for a Police Constable. Plaintiff was arrested and taken to the Police Station where he was kept until he was bailed out some hours after.

It was also stated that defendant said he had plaintiff a long time in his mind and was going to lock him up.

On the 3rd of June the charge of false pretences was heard by the Magistrate and dismissed after Manoel Gomes had given his evidence which was to the effect that plaintiff refused to pay when asked for the money although he had money in his pocket which rattled. Gomes also said plaintiff was a customer of his but had no account adding "I called a Police Constable and locked him up."

Subsequently on the 10th June, judgment was obtained against plaintiff in the Petty Debt Court for 24 cents the value of the high wines with costs \$4 32. This judgment was not taken to review. For the defence before me evidence was led to prove that the high wines were not paid for and that a friend of the plaintiff threatened to cut the defendant with a razor.

The defendant said the real reason why plaintiff was locked up was "because he made a row in the shop and Johnson threatened me."

The policeman who arrested the plaintiff when called advised payment for the high wines and then left but returned in ten or fifteen minutes and as they were still contending and plaintiff still refused to pay, he arrested plaintiff and took him to the station.

This witness in cross examination said "I arrested plaintiff on the complaint of defendant. If I had arrested him on my account I would have signed the charge."

After the arrest a woman at the shop offered to lend plaintiff a shilling. In re-examination the Policeman said "I was satisfied because he said he wouldn't pay. The charge was made at the Police Station and defendant was asked to sign it."

The only money found on the plaintiff was a fourpenny piece. This could hardly have rattled as defendant said and bears out the story of the plaintiff that it was change he received.

It was argued that the judgment for 24 cents and costs, was an estoppel.

It was for a debt and whatever it might be with regard to a Civil action it certainly would not be an estoppel to an action for false imprisonment on a charge of obtaining the subject matter of the suit by false pretences, which charge was dismissed by the Magistrate.

I am satisfied that the defendant gave the plaintiff in charge for obtaining the high wines by false pretences without reasonable and probable cause—the real reason was, as defendant himself stated, because he was afraid there might be an assault committed. I award the plaintiff the sum of \$30—as damages but I give no costs as the case might well have been brought in the Magistrate's Court.

(a) that since attaining the age of sixteen years he has at least three times previously to the conviction of the crime charged in the said indictment been convicted of a crime, whether such conviction was before or after the passing of this Ordinance, and that he is a person persistently leading a dishonest or criminal life ; or

(b) that he has on such a previous conviction been found to be a habitual criminal and sentenced to preventive detention.

(3.) In any indictment under this section it shall be sufficient, after charging the crime, to state that the offender is a habitual criminal.

(3.) The Governor, if he does not so discharge such person at the expiration of ten years from the commencement of the term of preventive detention, shall make a special report to the Secretary of State stating the grounds upon which he has decided not to discharge him.

(6.) Every such committee shall hold meetings, at such intervals of not more than six months as may be prescribed, for the purpose of personally interviewing persons undergoing preventive detention in the prison and preparing reports embodying such information respecting the persons undergoing preventive detention in the prison as may be necessary for the assistance of the Inspector of Prisons, and may at any other times hold such other meetings, and make such special reports respecting particular cases, as they may think necessary.

(7.) A licence under this section may be in such form and may contain such conditions as may be prescribed by the Governor.

(8.) The provisions relating to licences to be at large granted to persons undergoing penal servitude shall not apply to persons undergoing preventive detention.

(9.) The annual report of the Inspector of Prisons shall state, as regards each person undergoing preventive detention, the place where he is detained, the date at which his term of preventive detention commenced, the number and dates of his previous convictions, together with the crimes which led up to them, and such other particulars as the Governor may consider desirable in the public interest.

(3.) If a person absent from prison under such a licence escapes from the supervision of the society or person in whose charge he is placed, or commits any breach of the conditions contained in the licence, he shall be considered thereby to have forfeited the licence, and shall be taken back to prison.

(5.) The time during which a person is absent from prison under such a licence shall be treated as part of the term of preventive detention :

Provided that where such person has failed to return on the licence being forfeited or revoked, the time which lapses after his failure so to return shall be excluded in computing the unexpired residue of the term of preventive detention.

THE INDICTABLE OFFENCES (LARCENY) BILL, 1910.

EXPLANATORY MEMORANDUM.

The object of this Bill is to amend the Indictable Offences Ordinance, 1893, with regard to the fraudulent misappropriation of property, in the same manner as the law of England has been amended by the Larceny Act, 1901 (1 Edw. 7 c. 10).

It has been found that certain fraudulent misappropriations of property cannot be punished under the law as it exists now, and accordingly this Bill repeals sections two hundred and five and two hundred and six of the Indictable Offences Ordinance, 1893, under which only frauds committed by certain classes of persons are punishable, and in certain cases only when they have been given directions in writing as to the disposition of the property, and it makes much wider provisions, applicable to all persons entrusted with property, and not limited to any class, and not limited to cases where directions in writing have been given as to the disposition of the property misappropriated.

The Bill follows the English enactment before referred to, which has been found to work well.

A BILL ENTITLED "AN ORDINANCE TO AMEND THE
"INDICTABLE OFFENCES ORDINANCE, 1893, AS TO
"LARCENY."

BE it enacted by the Governor of British Guiana with the advice and consent of the Court of Policy thereof, as follows :—

(b.) having, either solely or jointly with any other person, received any property for or on account of any other person,

fraudulently converts to his own use or benefit, or to the use or benefit of any other person, the property or any part thereof or any proceeds thereof, shall be guilty of a misdemeanour, and be liable on conviction to penal servitude for seven years.

(2.) Nothing in this section shall apply to or affect any trustee on any express trust created by a deed or will, or any mortgagee of any property, real or personal, in respect of any act done by the trustee or mortgagee in relation to the property comprised in or affected by any such trust or mortgage.

THIS 3RD DAY OF DECEMBER, 1909.

CADOGAN

versus

AMERICA *et al.*

In this action the plaintiff claims an order against the defendants to advertise and pass a transport in favour of the plaintiff of the east half of the west half of lot No. 9, Section B, and the east half of the west half of lot No. 46, Section D, and the east half of the west half of lot No. 73 Section E, which form a quarter of a share in the village of Beterverwagting, county of Demerara and, *secondly*, \$100 damages. The defendants are all in default by their non-appearance to the writ of summons.

The evidence shows that since the filing of the writ on 20th September, 1909, the defendants have caused the said lands to be advertised and that transport was duly passed on 23rd October last.

The question resolves itself into one of costs which plaintiff is entitled to recover from defendants and which I allow.

M. J. BERKELEY, J.

THIS 4TH DAY OF DECEMBER, 1909.

EXOR. ESTATE J. B. MAYHEW, DECEASED,
versus

S. M. MAYHEW.

The plaintiff claims the sum of \$590, amount of a promissory note payable on demand, made in favour of J. B. Mayhew, deceased.

The defence is an admission of the making of the promissory note, with an allegation that, as the defendant is one of the residuary heirs under the will of plaintiff's sister, the testatrix, his share in the estate would be about sufficient to pay the amount of the promissory note. Defendant claimed accounts and payment of what may be found due.

There was no reply.

The defendant is the brother-in-law of the plaintiff. J. B. Mayhew was his wife.

From the evidence it is clear that an arrangement was made to deduct the defendant's share of the estate from the amount due by him on the promissory note. It is also clear that his share amounted to \$503 97, so the real amount due by him is \$56 03, which he must pay.

No evidence was offered on the counter-claim.

The question of costs was argued, and the plaintiff's counsel very rightly pointed out that if any costs were given they would, unless directed to be paid by the plaintiff personally, have to be borne by the estate—a burden it should not bear, as there was no necessity to bring the action at all.

There certainly was no ground for bringing an action for the whole amount of the promissory note. Under all the circumstances of the case there will be judgment for \$56 03 and no costs. In my opinion the estate should not be charged with any costs of bringing the action.

Copies of a Plan and amended Specification describing the proposed works, of an estimate of the cost thereof and of a statement showing the proportions in which it is proposed to assess the amount to be paid by each of the said divisions have been lodged at the offices of the Public Works Department in Georgetown and New Amsterdam and will be open for inspection of every person desiring to see the same, on every day not being a Sunday or public holiday, from 10 a.m. to 4 p.m. for one month from the date of the first publication of this notice.

HIS Excellency the Governor directs the publication of the following letter from the Director of the Department of Science and Agriculture with regard to rice cultivation.

By Command,

CHARLES T. COX,
Government Secretary.

SCIENCE AND AGRICULTURE DEPARTMENT,
Georgetown, Demerara,
3rd December, 1909.

SIR,

I have the honour to report that the rice experiments during the last few years have now resulted in our having obtained supplies of seed-paddy of three varieties which are of higher yielding powers than our Creole rice and have the valuable characteristics of that kind to a marked degree.

2. The yields of the selected varieties as compared with that of Creole rice were as follows in the crop of 1909-1910 and during the five crops 1905 to 1910 :—

				Bags of 120 lbs. of paddy per acre.	
				Crop of 1909	Means of crops of 1905-1929.
Creole	34.5	35.3
No. 75 (Suradani)	39.2	36.3
" 6	35.8	37.2
" 3	42.4	38.3

3. These varieties, including the Creole, have been grown from carefully selected seed each year and the seed-paddy now obtained may be regarded as being of practically pure strains.

4. About 5 tons of seed-paddy of the better varieties are available for distribution to rice-growers.

5. I recommend for the favourable consideration of His Excellency the Governor that I be authorised to distribute this seed paddy to those rice-millers in the three counties who are willing to undertake to distribute it among such of their clients as they are satisfied will value and use it for the purpose for which it has been produced by us ; limited quantities of the paddy being retained by the Department for distribution to large growers who may undertake to advise us as to the results of their trial, and for use at the Government Farms.

I have the honour to be,

Sir,

Your obedient Servant,

J. B. HARRISON,

Director.

The Honourable
The GOVERNMENT SECRETARY.

2. Matches intended for use in the Colony must be packed in cases containing ten (10) gross of boxes of not more than 100 matches in each box, and every manufacturer of matches shall keep a book in such form as may be approved by the Receiver General, in which shall be entered the number of such cases of matches put up and completed for delivery from the factory. There shall also be entered in such book the number of cases sent out or delivered from the factory. All cases of matches delivered from a factory are to be marked with a consecutive number to commence at "1" on the first day of each financial year, together with the name of the factory where manufactured.

3. The Receiver General or the Commissary of the District or any Officer of the Treasury authorized by the Receiver General in writing, shall have access to the books of the factory, and may take extracts therefrom.

4. Every manufacturer of matches shall deposit with the Receiver General specimen copies of the labels which are to be used or intended to be used as labels for the boxes containing the manufactured matches, and no labels shall be so used copies of which have not been so deposited. Such labels must contain a statement or indication that the matches were made in British Guiana.

5. All matches manufactured within the Colony for consumption therein must be put up in boxes, and all such boxes must be enclosed in excise wrappers of such stamp value as shall denote payment of the duty prescribed by the Tax Ordinance for the time being in force.

6. Such wrappers are to be obtained from the Receiver General, and they shall be in such form and with such device and with any words and figures thereon as the Governor-in-Council may think proper.

7. As soon as the manufacture of the matches has been completed they must be packed as required by these Regulations with all possible speed, and each box intended for home consumption must have an excise wrapper affixed to it in such a way that the box cannot be opened without destroying the excise wrapper.

8. No matches manufactured within the Colony are to be transferred, assigned, sold or kept for sale contrary to the provisions of these Regulations, under a penalty of one hundred dollars.

9. Every person who commits a breach of any of these Regulations to which no penalty is specifically attached shall be liable to a penalty not exceeding one hundred dollars.

ORDER.

WHEREAS the Colonial Civil Engineer, under the provisions of Section 4 (1) of the Sea Defence Ordinance, 1883, on the 18th November, 1909, gave notice to the proprietor of Plantation Windsor Forest on the West Coast of Demerara, calling upon him to execute the following work to protect the foreshore of his estate, in lieu of that described in paragraph 6 of the Order-in-Council of the 22nd March, 1909, viz:—

A stone and timber breakwater is to be built as specified below eastward from the end of La Jalousie Stone Groyne towards and in line to the end of the Windsor Forest koker dam.

Two rows of greenheart piles not less than 10 inches square are to be driven four (4) feet apart and two-thirds of their length in the mud. Those in each row are to be spaced not further apart than 10 feet centre to centre. On the inner side of each row three 10 in. by 10 in. greenheart wales are to

be fixed with a one and a quarter inch bolt and nut to each pile, the top one 12 inches below top of piles and the bottom one at ground level, each bolt to have a two and a half inch square washer under head and nut.

Each pair of piles is to be tied across the width of the breakwater with a one and a half inch iron tie rod having a 3 inch square washer under head and nut.

The space between the two rows of piles is to be carefully packed with granite blocks of not less than 150 lbs. weight each; the joints between them to be carefully pinned in with granite spalls. The level of the top of top wale is to be 55.50 G.D.

It is hereby ordered that the Colonial Civil Engineer shall execute the work mentioned in the notice of the 18th November, 1909, in place of the work mentioned in paragraph 6 of the Order-in-Council dated the 22nd March, 1909, which the proprietor of the said Plantation Windsor Forest has been required and has failed to commence and that the cost of the said work shall be recovered from the proprietor of the said Plantation Windsor Forest.

By Command,

J. HAMPDEN KING,
Clerk of the Council.

14th December, 1909.

SUPREME COURT OF BRITISH GUIANA.

LIMITED JURISDICTION.

THIS 24TH DAY OF NOVEMBER, 1909.

OMEER

versus

ANGOORIE.

This is an action for malicious prosecution, in which the plaintiff claims \$250 as damages.

The defendant entered an appearance in person on 17th September, 1909, but has filed no statement of defence. It is therefore heard *ex parte*.

The documentary evidence, so far as it affects the defendant, shows that on 25th March, 1909, he swore to an information on oath charging a woman named Tetari with the larceny of certain jewellery, and that a warrant of arrest was issued thereon. On the same day it appears that P.C. No. 1,911 McNeil swore to an information that the present plaintiff had in his possession the said jewellery, and that a warrant was issued thereon to search the premises of plaintiff and a "certain woman, name unknown," and that a warrant was issued for the arrest of the plaintiff on a charge of unlawful possession. It is true that the recognizance of 26th March, entered into by the plaintiff, refers to a charge of larceny preferred by the defendant, and that there is attached to the proceedings,—what purports to be,—an information on oath bearing the mark of defendant and witnessed by two members of the police force. This information is not dated, nor is it taken or sworn to before any Magistrate.

The evidence given on the trial is, with the exception of the Magistrate's Clerk, who produced the papers connected with the criminal prosecution, that of East Indians. As the Court informed Mr. Abraham, the Solicitor who appeared for the plaintiff, it was clear that the majority of these did not sufficiently understand the English language to enable them to give their evidence without an interpreter, and in more than one instance the Solicitor had to press

rather too strongly for an answer to the effect that defendant had given plaintiff into custody. Attention must be drawn to the absence of any member of the police force from the witness box, although three were present at the alleged giving into custody. This is the more remarkable, as Police Constable No. 1,911 McNeil, who was the only one of the three who gave evidence before the Magistrate, never mentioned that defendant authorized the arrest of the plaintiff, while the endorsement on both the search warrant and the warrant of arrest show that they were both executed at 4.30 p.m. on 25th March, and were therefore presumably obtained at one and the same time by P.C. McNeil.

The Court regards the evidence as to defendant having authorized or instituted the prosecution as unreliable, and judgment is therefore entered for the defendant.

Public Works Department.**NOTICE.****ORDINANCE No. 2 OF 1883.**

NOTICE is hereby given that it is proposed, for the protection of the district known as Nos. 70 and 71, Corentyne Coast, in the county of Berbice, to strengthen the seven existing groynes and to erect five new timber groynes each 100 feet long, more or less, on the foreshore and at right angles or thereby to the line thereof with 600 lineal feet, more or less, of sheet piling, parallel to the said line of foreshore of the above-named district.

It is further intended to maintain the above-mentioned structures in a proper state of repair for a period of two years after their completion.

The cost of construction, with maintenance during said period of two years, is estimated at \$10,000.

It is proposed to make the two estates Massiah or No. 70 and Little Massiah or No. 71 comprising the said district and the public road through the same, liable to contribute to the cost of execution and maintenance of such works. Copies of a Plan and amended Specification describing the proposed works, of an estimate of the cost thereof and of a statement showing the proportions in which it is proposed to assess the amount to be paid by each of the said divisions have been lodged at the offices of the Public Works Department in Georgetown and New Amsterdam and will be open for inspection of every person desiring to see the same, on every day not being a Sunday or public holiday, from 10 a.m. to 4 p.m. for one month from the date of the first publication of this notice.

In order to meet the cost of executing the above works it is proposed to obtain a loan of \$10,000 from the Government. The repayment of the loan will be spread over a period of 20 years and an annual rate to meet interest and sinking fund charges will be assessed on the district.

Any person who objects to the execution of the proposed works or to the proportion or manner in which it is proposed to assess either estate in which he may be interested shall, within such period of one month, lodge with the Public Works Department his objections in writing and the grounds on which he bases his objections.

GOVERNMENT SECRETARY'S OFFICE,

264. 20th December, 1909.

HIS Excellency the Governor directs the publication for general information of the following Despatch from the Secretary of State for the Colonies as to the restrictions to which fishing in Haytian waters is subjected:—

Downing Street,
23rd November, 1909.

Sir,—I have the honour to inform you that enquiry has recently been made of the Government of Hayti as to the restrictions to which fishing in Haytian waters is subjected.

2. His Majesty's Consul General at Port-au-Prince has now forwarded a note from the Haytian Secretary of State for Foreign Affairs from which it appears that, in accordance with international practice, the right to fish in the territorial waters of the Republic is reserved to nationals; and that foreigners who desire to anticipate in the fishery must first obtain a licence from the President and afterwards make application to the proper local Magistrate for the permit.

3. The foregoing applies only to the territorial waters of the Departments of the North West and Artibonite and does not apply in the case of the Departments of the West and South, the right to fish in the territorial waters of these Departments having been granted exclusively to certain concessionaires to whom it would be necessary to apply for permission to fish in those waters.

4. I would be glad if you would afford publicity in the Colony to the information furnished by the Haytian Minister.

I have, etc.

(Sgd.) CREWE.

Governor Sir F. M. Hodgson, K.O.M.G.

REFERRING to Government Notice of the 26th February, 1909, No. 102, His Excellency the Governor directs the publication of the following Circular Despatch from the Secretary of State for the Colonies:—

CIRCULAR.

Downing Street,
10th November, 1909.

Sir,—With reference to my Circular despatch of the 19th of January last, I have the honour to inform you that, having regard to the importance of securing in the fullest sense, at as early a date as possible, an

international load line for ships, the Board of Trade have decided to recognise in the ports of the United Kingdom the load lines of Foreign ships assigned by Bureau Veritas and Germanischer Lloyd, under the authority of the French and German Governments respectively, in accordance with the French and German regulations, provided the ships do not belong to a country which has adopted freeboard regulations recognized by the Board as equally effective with the British regulations, in which last case the recognition of the load lines of the ships of that country will be limited to those assigned under national rules by the competent authorized authority or authorities.

2. Although other countries are preparing to adopt similar regulations to those in operation in this country, the only regulations which have up to the present been accepted as equally effective with the British regulations are those of France and Germany.

I have the honour to be,

Sir,
Your most obedient, humble Servant,

CREWE.

SUPREME COURT OF BRITISH
GUIANA.

GENERAL JURISDICTION.

THIS 3RD DAY OF DECEMBER, 1909.

TAT, Plaintiff,

versus

MANSON HING, Defendant.

The plaintiff by his written application, (as modified by his counsel's statement) applies for judgment against the defendant for \$17,510 30, and for an order directing payment out of Court, in part discharge of such judgment, of a sum of \$6,451 50 now standing in Court, which represents the net proceeds of sale of certain partnership property. This application is based on the finding of the single Judge, before and by whom the accounts were debated and adjusted, that the sum of \$35,020 60 was owing by the defendant to the partnership of which he and the plaintiff had been the only members.

It is contended by the defendant that the sum of \$35,020 60 is incorrect because:—

(1.) in any event the auctioneer's commission and charges amounting to \$493 39 for selling the property the net proceeds of sale of which are now in Court, should be deducted:

(2) \$190 should also be deducted, item 18 of the defendant's Account A being (as appears from the auctioneer's statement) erroneously given as \$700 instead of \$510:

(3) the following surcharges made by the plaintiff were wrongly allowed: viz., (a) \$15,683 41, the amount alleged to be part of the purchase money of the Lombard street business for which credit was not given in the defendant's accounts, and (b) \$400 alleged to be purchase money of the Agricola Village property received by the defendant:

(4) the following sums were wrongly disallowed (a) \$599 97 being part of the sum claimed as interest on moneys advanced to the business and on overdraft at the British Guiana Bank (Item 132 Account D), (b) \$240 alleged to be interest promised by defendant to Hing Cheong and Co., Ltd., on Chin-a-Yong's prom note for purchase money of the Lombard street and Camp street groceries (Item 117, Account D), (c) \$100 alleged to have been promised and paid, and \$100 alleged to have been promised to Yong-a-Yong for giving financial aid by a loan to the business (Item 106, C, and Item 122, Account D):

(5) an additional account (marked F) containing debit and credit entries has not been taken into consideration.

Counsel for the defendant also mentioned item 135 Account D, for \$100 as one which should not have been disallowed but subsequently abandoned this item. He also urged that not merely the auctioneer's commission and charges but—\$7,280 being the gross proceeds of sale of the property sold at auction should be deducted from the sum of \$35,020 60 (already mentioned) as such proceeds were never received by the defendant but after deduction of auctioneer's charges and expenses and fees of Court, were deposited in Court in this action, and counsel further contended that the plaintiff should obtain judgment against the defendant for one-half of the total sum found (after decision of the points already mentioned) to have been received and not accounted for by the defendant, and that one-half only of the amount in Court should be paid out to the plaintiff and one-half paid to the defendant, instead of the whole being ordered to be paid to the plaintiff. Apparently when the accounts are finally settled the partnership assets (if any) will consist of the money in Court and the balance found to be owing by the defendant to the firm, and the plaintiff will be entitled to require the defendant's debt to the firm to be deducted from his share of the moneys in Court and the Court could order payment to the defendant of such portion only (if any) of those moneys as may not be needed to pay the plaintiff's one-half share of the moneys owing by the defendant to the firm. (Partnership Ordinance, 1900, sec. 41). In view of the foregoing it is clear that to ascertain the extent of the defendant's debt to the firm the \$7,280 representing the gross proceeds of sale, must be deducted as contended by the defendant's counsel, and the defendant's one-half of the moneys in Court be applied in payment *pro tanto* of the plaintiff's one-half of the sum payable by the defendant to the firm.

As the sum in Court represents the net proceeds of sale after deduction of commission and expenses of the auctioneer, the adoption of the course just laid down gives effect to the first and second of the five

points already stated as contended for by the defendant. Plaintiff's counsel has rightly conceded the second. The Court proceeds to consider the remaining points.

The account marked F which was not taken into consideration by the single Judge was not put in within the time allowed by the Rules of Court (O. xxix R. 4) but was tendered on the 29th September, two days before the date fixed for the adjustment of the accounts before a single Judge. The items therein not dealt with before the single judge begin with one debiting the defendant with two months' rent of the Anna Catharina property and include all subsequent items save the debit item of \$1,700. The plaintiff's counsel has waived all questions as to the items in the account not dealt with save the two last, and is willing that the account as adjusted by the single Judge should be altered accordingly. The net result of taking into consideration the admitted items would be the deduction of \$25.69 from the balance owing by the defendant to the partnership. The first of the two items objected to is one of \$9,138.97 described as "Amount due to Hing Cheong & Co., Limited, on Bartica, Groete and Black Creek Account at date of sale." The date of sale as explained by counsel means the 4th. Aug., 1909, when Lot 16, Bartica with the shop and stock and the Groete and Black Creek businesses and stock were sold at auction. Plaintiff's counsel contends that even if account F could be considered, notwithstanding its tender after the time for filing accounts had expired, still no part of this item could be allowed, because (a) the partnership between him and the defendant according to the Court's previous judgment is to be deemed to have terminated on the 30th June, 1908, save and except so far as was necessary for winding up affairs, (b) the defendant alone took over those businesses in Aug., 1908, the value as at that date being apparently regarded by the parties when before the single Judge as the same as when sold at auction on Aug. 4, 1909, (c) the defendant alone carried on those businesses at Bartica, Groete creek and Black creek and could not bind his former partner, especially as not only was public notice of dissolution of the partnership given but the defendant was a director of and arranged the sale of the partnership's main business to Hing Cheong & Co., Ltd., which therefore knew of the dissolution; and (d) all mercantile accounts against the firm up to the date of dissolution were included in Account A, which is one of the accounts dealt with by the single Judge. This view of the matter is we think correct. The other item objected to is given as \$29.52 "Amount claimed by Donald Currie & Co. for goods supplied to Bartica business 23rd March, 1909, but disputed." The same principle governs this item, even if the claim were undisputed.

In view of the foregoing it is unnecessary to decide whether account F should have been taken into consideration notwithstanding it was not put in within the time prescribed by the Rules of Court, no explanation being given why most of the items could not have been included in the accounts first put in, or why the account, as to any item which depended on the result of the sale of 4th Aug., 1909, and therefore could not be so included, was not put in for eight weeks after that sale. It is we think clear that the defendant was not entitled (unless the plaintiff waived all objections) to put in any account after the expiration of the time limited by the Rules of Court, without leave of the Court being obtained. As the two unadmitted items cannot in our opinion be charged against the partnership the Court will not now grant leave to file this supplemental account which was excluded from consideration by the learned Judge.

Of the sums mentioned as wrongly disallowed we think the two sums of \$100 each alleged respectively to have been promised and paid and to have been promised to Yong-a-Yong for giving financial aid by loan of money, were rightly disallowed there being no satisfactory evidence that it was necessary to obtain any loan from Yong-a-Yong for the purpose of carrying on the partnership business or that the alleged loan was *bona fide* obtained and applied for that purpose and in the absence of such evidence one partner not being impliedly authorised to bind his co-partner by any promise to pay any money for such financial assistance. It is not suggested that the plaintiff expressly authorized the defendant to obtain this loan.

Also on the evidence before us we see no sufficient ground for dissenting from the decision of the single Judge, that the item of \$240 (117 Account D) should be disallowed, and that the defendant must be surcharged with \$400 the proceeds of sale of the Agricola village property which formed part of the partnership assets. The only items which remain to be considered are (a) the surcharge \$15,683.41 and (b) the disallowance of \$599.97. The single Judge allowed the surcharge on the ground that the Full Court had found in its previous judgment

directing the accounts to be taken that \$87,423 was the amount paid as purchase money of the Lombard Street business only and that evidence to contradict that finding was inadmissible. The question has been fully argued before us and we think the decision of the learned Judge is correct. The amount paid as purchase money of the Lombard Street business was one of the facts pleaded in the Statement of Claim, as forming the basis of the plaintiff's claim, issue was joined as to that fact by the Statement of Defence denying it, and the Court on the evidence laid before it, arrived at a distinct finding on that fact which finding formed a material and essential part of the basis of facts on which the Court rested its conclusion as to the legal relations of the parties. Under these circumstances the defendant on the taking of the accounts was bound by that finding and was precluded from further contesting it. The item \$689.97 was disallowed the learned Judge being of opinion that the judgment of the Full Court shewed that no moneys had been advanced by the defendant to the business of Hing Cheong & Co. other than capital and therefore no evidence to the contrary could be given.

Whether or not the defendant advanced money for the business as distinct from his share of the capital (Partnership Ord. 1900, Sect. 23) is not an issue of fact raised by the pleadings nor does the judgment of the Full Court refer to such advances. The sole passage cited from the judgment refers to capital and states that the defendant's putting in any capital save to a limited extent viz., \$1,300 was not proved. We think the defendant, therefore, was not precluded by the judgment of the Full Court from putting in evidence to shew that he had made advances out of his private moneys for the business, in addition to capital. Assuming such advances were made, they must be presumed to be included in Account B which states the several advances made during the partnership, but does not indicate how far (if at all) the money was defendant's private money and how far it was obtained by means of the overdraft at the Bank or from profits of the business but the question whether, having regard to the circumstances under which such advances (if any) out of the defendant's private moneys were severally made and to the agreement between the partners as to the use of the overdraft, they carry interest is not one which this Court on the materials now before it can decide, and therefore unless some agreement between the parties is arrived at, the particular item under consideration must be referred back to the learned Judge to deal with after hearing such evidence as may be properly put before him, such evidence to be strictly limited to the items on which this interest is claimed. Until this question is settled final judgment cannot be given, the Court therefore adjourns further consideration till that matter has been settled by agreement or dealt with by a Judge sitting alone. [An agreement having been arrived at between counsel, the Court proceeded].

The plaintiff's counsel having stated that he waives all question as to the allowance of the sum of \$689.97 as interest on moneys advanced by the defendant out of his own moneys for the purpose of the business the accounts between the parties can now be adjusted as follows:—

Total sum found by the single Judge to be payable by the defendant	\$ 35,020 60
Less credit balance of admitted items in Account F .. \$	25 69
Interest on advances made by defendant of his own moneys	589 97
Gross proceeds of sale of property, net proceeds being in Court	\$7,280 00
	\$ 7,895 66
Debt owing by defendant to partnership	\$27,124 94

The partnership assets to be divided will therefore consist of this debt and of the moneys now in Court, and each partner is entitled to one-half. But the defendant cannot receive any part of the moneys in Court till he has paid his debt, the plaintiff having a lien on the defendant's share therein and a right to have it applied in payment of his share of the debt owing by the defendant to the partnership (Partnership Ordinance 1900, sect. 41). The costs of both parties to the action other than those dealt with in the Judgment of 24th April, 1909, must we think be borne by the partnership assets i.e. in effect by the plaintiff and defendant equally. But the defendant cannot claim payment of his costs until he makes good what he owes to the partnership (*Ross v. White*, 1894, 3 Ch. 327) and his half share of the fund in Court being insufficient to pay the plaintiff's share of the moneys owing by the defendant to the partnership, we think the plaintiff should be declared entitled to

receive \$13,562.47 being one-half of the defendant's debt to the partnership and to \$3,225.75 being one-half of the fund on Court, that \$3,225.75 being the defendant's one-half of that fund, should be paid to the plaintiff in reduction of his share of the money owing by the defendant to the partnership, and judgment for \$10,336.72 being the residue of the plaintiff's said share should be given against the defendant: that the costs of both parties other than those dealt with in the judgment of the 24th April, 1909, should be taxed and each party bear one-half of such costs.

Government Notice.

GOVERNMENT SECRETARY'S OFFICE,
Georgetown, Demerara,

267.

24th December, 1909.

THE following extract from a despatch from the Secretary of State for the Colonies to the Royal Commissioners appointed to enquire into the question of trade relations between Canada and the West Indian Colonies setting forth the points to which His Majesty's Government desire the attention of the Commissioners to be specially directed in addition to making full and diligent enquiry into the present condition and future prospects of trade between Canada and the West Indian Colonies and suggesting measures for promoting closer trade relations between them, is hereby published for general information :—

Extract from a despatch from the Secretary of State to the Royal Commissioners.

"The first duty of the Commissioners should be to enquire to what dimensions the trade between Canada and the British West Indies has already attained ; what increase has taken place in late years, and to what causes it may reasonably be attributed, more especially how far any such increase is due to the preference granted by the Canadian Government to produce grown in and shipped from the British West Indies. Their second duty should be to consider by what means it may be possible to promote and extend this trade ; to enquire and to report as to what advantages the British West Indian Colonies may be able and willing to give to imports from Canada, more particularly by the reduction of duties, and whether, on the other hand, the existing markets in Canada for West Indian produce, especially for sugar and molasses may be secured and extended."

"It is already understood both in Canada and the West Indies that trade advantages given by the West Indies to Canada will in any case be conceded to the same products coming direct from the Mother-country, and the Commissioners should report on this basis. They should also bear in mind that His Majesty's Government have undertaken that in any arrangement which may arrive at between Canada and the West Indies due regard will be had to the interests of Newfoundland."

"They should consider, having regard to the views which have been expressed by the Canadian Government, how far, in framing any reciprocal trade arrangement between Canada and the British West Indies, it may be either possible or desirable to deal with the British West Indies collectively, and whether it may not be well, while framing an arrangement applicable to all, to make the application permissive in the case of the individual Colonies, so that those Colonies which may be willing to accept the proposals at once may do so, and the others may have the option of adhering at a later date."

"While thus having regard to the interests and the inclinations of the separate West Indian Colonies so that they may receive every consideration consistent with due regard to the interests of Canada, the Commissioners should bear in mind that any recommendations which they can make in the direction of a uniform system of customs duties for the British West Indies will be for the benefit of those Colonies, and tend to facilitate the objects of the enquiry."

"While desirous that the subject of commercial reciprocity between Canada and the British West Indies should receive the fullest attention, His Majesty's Government are at the same time anxious that other possibilities of promoting closer trade relations should not be overlooked, and I would therefore invite the Commissioners to consider what new openings may be likely to present themselves and what facilities may be given for developing the resources of the West Indian Colonies, and how far additional capital may be required for such development, and whether such capital may be forthcoming from Canada, supplementing the Canadian banking and commercial interests which are already in existence in the West Indies. They should also specially report on the possibility of more efficient and more frequent steam communication, and upon possible improvements in the cheapening of telegraphic communication between Canada and the West Indies, either by arrangement with existing Companies or in some manner not unduly conflicting with present interests."

In order to facilitate as far as possible the labour of the Commissioners and to enable them to obtain within the limited time at their disposal full, clear and concise information on the subjects which are within the scope of their enquiry, applications should be made to the Government Secretary and sent in not later than the 20th January next, by persons wishing to appear before the Commission in order that they may be given an opportunity of preparing a statement on the lines indicated in a form which will be supplied to them by the Government Secretary's Office. It must, however, be distinctly understood that only a limited number of witnesses can be examined by the Commissioners and the intention of all concerned is called to the necessity for condensing as far as possible evidence, whether tendered in writing or to be given orally and for confining it to those subjects upon which, from their knowledge, experience and occupation, witnesses are best qualified to speak.

It is also desirable that when witnesses are members of any Society which proposes to be represented before the Commission they should associate themselves with the other members rather than appear independently.

By Command,

CHARLES T. COX,
Government Secretary.

SUPREME COURT OF BRITISH GUIANA.

GENERAL JURISDICTION.

THIS 8TH DAY OF NOVEMBER, 1909.

In re petition of PASEA, *et al.*

This is an application under Ordinance 10 of 1887, for the determination of two questions which have arisen under the will of the late William Es-ex Pasa and the joint will of the late Mary Goldie Gertrude Pasa and Edith Emily Gertrude Pasa.

The first mentioned will, omitting formal parts, is as follows:—"I will and bequeath to Mrs. Mary Gertrude Pasa and Edith Emily Gertrude Pasa all that I may die possessed of." By the joint will M. G. Pasa and E. E. G. Pasa "as co-heiresses under the will of the late William Essex Pasa, deceased," bequeath "one-third of the income derived from all that we may be in possession of at the time of our death" to G. A. Pasa, and the remaining two-thirds to other persons therein named in equal shares subject to certain conditions therein contained. This petition is presented by E. E. G. Pasa and one of the executors appointed by the joint will.

The first question asked is whether on the death of M. G. G. Pasa, E. E. G. Pasa took, by right of survivorship or otherwise, the whole of the estate of W. E. Pasa, or whether any share of the same passed to the heirs of the said M. G. G. Pasa.

In our opinion, the will of W. E. Pasa constituted M. G. G. Pasa and E. E. G. Pasa co-owners of the estate of W. E. Pasa in equal shares (Voet xxviii, 5, 24), and each of them having survived the testator and adiated, no question as to *jus accrescendi* arose, such question in cases of inheritance *ex testamento* or of legatees arising only where one or more of several persons instituted heirs fail or fail to become heir or heirs (Voet xxix, 2, 40; Grot. II, 24, 19 and in case of *fidei commissum* Voet xxvi, 1, 71), or one of several persons to whom a legacy is bequeathed dies without acquiring a vested interest (Voet xxx, 59, 64; Grotius ii, 23, 5).

Some of the *dicta* in the Bourda Will case (L.R.; B.G. II, pp. 563 seq.) appear too widely stated. Steenkamp v. De Villiers (10 Juta 856) will be found on examination to accord with Voet's doctrine, the question in that case being whether a beneficiary had died before acquiring a vested interest, and whether the interest he would have acquired had vested in the survivors joined with him in the bequest. M. G. G. Pasa's share, therefore, on her death would pass to her heirs *ex testamento* (if any) or failing them to her heirs *ab intestato* (in other words) it would be subject to any disposition made by her by will, and if not disposed of by will would descend to her heirs *ab intestato*.

This being so, the second question asked is, who is or are the persons or person entitled to the income of the estate during the lifetime of E. E. G. Pasa? The answer depends on the construction to be placed on the mutual will of the 29th May, 1903, whether the said E. E. G. Pasa took a life-interest thereunder in her mother's share of W. E. Pasa's estate. The conditions attached to the bequests made by that will throw little (if any) light on the matter, and the words in the will which mainly affect the question are the gift of the income "derived from all that we may be in possession of at the time of our death." It is impossible that both testatrixes should be in possession of any property at the date of the survivor's death, and the circumstance that if the words "at our death" are construed as meaning "at the death of the survivor" all property owned by the survivor at the date of her death from whatever source derived, and though obtained after the death of the testatrix first dying would be included in the disposition is another argument against that construction. If, however, the rule laid down by the Privy Council in *Denysen v. Mostert*, L.R. 4 P.C., p.

236, viz., that mutual wills, notwithstanding their form, are to be read as separate wills, the dispositions of each spouse being treated as applicable to his or her half of the joint property—be applied in this case, and the words “I” and “my” read instead of “we” and “our,” a meaning intelligible and attended by no impossibility is arrived at. We think, therefore, that one-third of the income of the share of the testatrix M. G. Pasea in W. E. Pasea's estate and of her other property (if any) now goes to George Albert Pasea, and the remaining two-thirds to the persons named in the joint will under the bequest therein called the second part, subject to the conditions expressed. The costs of the executor must be paid out of the estate. The other petitioner will bear her own.

COUNTY OF DEMERARA.

LIMITED JURISDICTION.

THIS 4TH DAY OF DECEMBER, 1909.

IN THE MATTER OF AN APPLICATION BY AND ON BEHALF OF THE BRITISH GUIANA BANK IN THE MATTER OF THE BRITISH GUIANA ICE COMPANY, LIMITED (IN LIQUIDATION).

This is an application that the time limited for giving notice of an application to vary the decision of the Official Receiver and Liquidator of The British Guiana Ice Co., Ltd., be extended to four days from the date of this order or for such time as the Court may seem fit.

On the 13th October, 1909, the Official Receiver and Liquidator rejected a claim of the British Guiana Bank. This was intimated and the time for giving notice of the application to vary the decision expired on the 4th November. On the 3rd of that month, the counsel for the Bank interviewed the then acting Official Receiver and the procedure to be adopted appears to have been mentioned. Counsel was under the impression that he had intimated that the Bank would apply that the decision be varied.

The application papers were filed on the 4th November, but no notice was given of the intended application beyond what transpired at the interview referred to.

When the application came on for hearing, an objection was raised that the notice of the application should have been in writing. I upheld this objection but gave leave to apply for an extension of time in which to serve a notice in writing.

It was argued that as the period within which this notice should be given has expired the Court could not extend the time.

I have gone carefully through all the cases bearing on the point and I have no doubt that the Court can extend the time if the applicant shows anything which entitles him to ask for the indulgence of the Court to relieve him from the legal bar that is imposed by the Rules.

Although there was a slip in this case, I think taking into consideration all the circumstances that sufficient has been shown to justify me in granting the application. I therefore extend the time for giving notice of an application to vary the decision of the Official Receiver and Liquidator to four days from the date of this order.

The costs of this application must be paid by the applicants.

THIS 18TH DAY OF DECEMBER, 1909.

JEONATH
versus
JARGOPPAUL.

The plaintiff claims shortly an order on the defendant to pass to him transport of the east half of lot D, at Plantation Coffee Grove, which he purchased, or, in the alternative, the return of \$50, the purchase money with \$250 as damages.

The defendant denies the sale and the payment of \$50 and says that in June, 1906, he permitted the plaintiff to erect a house on a portion of the said lot as a tenant at will which he still is.

Evidence was given for the plaintiff to show that an agreement was made to sell the half lot and that \$50, the purchase money, was paid in two instalments, but a receipt was produced for the defence, and admitted, showing that the plaintiff received from the defendant the sum of \$50 as being due by one Anandis, the grandmother of the plaintiff.

The plaintiff denies having lent the woman Anandis any money but admits that the receipt was read over to him before he signed it. A complaint was made to the Immigration Agent by the plaintiff and the matter was investigated when the defendant agreed to pay to the plaintiff the \$50 received by Anandis.

The Immigration Agent, Mr. Harel, as is well known, is not in the colony and his evidence was not available.

If the plaintiff knowingly signed the receipt, as he says he did, I am at a loss to understand the present claim especially as when in the alternative a return of the \$50 is asked for.

It would appear from the line of cross-examination as if there was some friction owing to a Mosque being opposite the Hindu Temple which is in the house built by the plaintiff on the half lot, but there was no direct evidence of this.

I am not satisfied that there was a bargain and sale as alleged and I give judgment for the defendant with costs.

JOHN E. HEWICK, J.

GUYADEEN BROTHERS

versus

RUGHANAUTH AND RAMOTAR.

The plaintiffs claim the sum of \$140 from the defendants as makers of a promissory note for that amount, payable to the plaintiff on demand.

The defendants admit the signing of the promissory note under certain circumstances which are shortly—that it was verbally agreed that the defendants, who received only \$100, should advance this sum to rice farmers, and that they should account to the plaintiffs either in paddy or money, according as the various persons receiving advances gave paddy or paid \$1 40 for every dollar received, and also that they, the defendants, were to receive a commission on the value of the paddy obtained, which was to be deducted at the time of settling accounts, also that the persons who received advances have not been able to deliver sufficient paddy to meet the advances owing, in some cases, to failure of crops and, in others, to death.

The defendants also say there were other similar transactions represented by promissory notes of later date, which notes have been returned to the defendants as having been paid, but the paddy delivered was to be appropriated towards the payment of the notes in the order of their respective dates.

The document sued on is peculiar. It runs: “On demand we, the under-signed, jointly and severally, promise to pay to Guyadeen Bros. or their orders, the sum of \$140 or give 100 bags (one hundred) of clear and well dried paddy, of not less than 148 pounds to each bag.”

This document which was called for by Counsel for the defence and produced was found by the Court to have been insufficiently stamped at the time it was made, and the penalty was imposed before it was admitted. A point arose as to whether evidence could be given as to the alleged verbal agreement, and I admitted the evidence subject to the objection taken, as the alternative by which the note could be satisfied being on the face of the document itself indicated that there was something more between the parties which could only be explained by evidence, that is to say, the written instrument does not contain the whole that was intended by the parties (Lindley v. Lacy, 31 L.J.N.S.C.P. 7).

The question of consideration was also raised. Failure of consideration on a note can be proved by evidence (Abbott v. Hendricks, 1 M.T.G. at page 795). No parol evidence can be given to contradict the terms of a written document, nor can a contemporaneous oral agreement be admitted to vary the effect of such an instrument (a bill of exchange). But if the evidence be to the effect that the document is only delivered as an escrow or that it is not to take effect as a contract until some condition is fulfilled, it is admissible (New London Credit Syndicate v. Neal, 22, 13, (1898)).

On all the authorities it seems undoubted that on such an instrument as the one in this case, evidence is admissible to show that the promise to pay was not the substance of the document, the whole contents (Mortgage Insurance Corporation v. Commissioners of Inl. Revenue, L.R., 21 Q.B. (C.A.), 352).

The point as to whether the document is or is not a promissory note, is not specially raised by the pleading but it was argued that it was a receipt.

Such a question, as far as I can find, has never been raised in the English courts.

In Byles on Bills, p. 106, it is said: “Nor must a bill be in the alternative as to pay a sum of money or render A.B. to prison.” Reference is made to an old

case of *Smith v. Boheme* and others, cited in 2 Lord Raymond, 1396, in a case of *Morris v. Lee*.

In the case cited which was heard in the reign of Queen Anne, it was held that the document was not such a note as that an action would lie on it by the statute after failure of rendering the body to prison, because it was not necessarily or originally for payment of money, but, by matter *ex post facto*, a note for payment of money only, viz., the body not being surrendered to prison.

By section 83 of 13 of 1891, a promissory note is an unconditional promise in writing made by one person to another signed by the maker engaging to pay on demand or at a fixed and determinable future time a sum certain in money to, or to the order of, a specified person or to bearer.

There is no doubt that a promise to pay a certain sum of money or to do something which is not represented by a money value, such as to render a person to prison, is not a note, but according to Chalmers, page 263, it was held in New York that an instrument running "Promise to pay cash or order \$100, or in goods on demand," was a valid note.

The point is a nice one, but it need not be decided for the purposes of this case, as the question was not definitely raised.

From the evidence, I am satisfied that the arrangement entered into was that the defendants, who received only \$100 in cash, were to make advances to rice farmers who were to repay the advances so made by delivering certain quantities of paddy or by paying \$1.40 for every dollar received. According to the promissory notes given by these farmers in favour of defendants and put in evidence, the paddy was valued at the uniform rate of 1 cent per lb., for we find those who received \$7.50 had to give 5 bags of paddy, those who received \$6 had to give 4 bags, and those who received \$3 had to give 2 bags; all the bags were to contain 150 lbs. each. In one instance \$2 was to be repaid or two bags of paddy given. The promissory note sued on gives the alternative payment as 100 bags of paddy of 148 lbs. each, or 14,800 lbs. of paddy instead of \$140, being 800 lbs. more than the defendants themselves would receive from the farmers if they delivered the paddy as contracted for. If \$100 only were advanced, the excess by the note would either be \$40 in money or 4,800 lbs. of paddy, representing the value of \$48. No evidence was called for the plaintiffs, their case being rested on the legal points "that the defendants being makers of the note, and having admitted signing, it was liable; (2) that no evidence would be admitted to vary the terms of the written document."

As I have already stated, I admitted evidence not to vary the terms of the note but to explain something on it which needed explanation.

On the whole of the case I am satisfied that the defendants are not liable on the note, on the ground that they personally received no consideration and were in reality only acting as agents of the plaintiffs in their dealings with the rice farmers, and were to be remunerated by a commission.

There will be judgment for the defendants with costs.

It is only right to say that the defendants should put the plaintiff in a position to recover the amounts of the promissory note given to them by the farmers for advances totalling \$141.50, the money so advanced being in reality the money of the plaintiffs.

2. The following is the report of the Committee of Ladies presided over by Sister M. J. Evangelist :—

Convent, New Amsterdam.

Dear Mr. Sconce,

I enclose results of the needlework examination. Section A was on the whole good. In Section B some few of the candidates sent up excellent specimens, but the work of the majority was too poor to deserve a pass. The gathers and darns of Sections C and D showed want of practice.

Sincerely Yours,

(Sd.) Sister M. J. EVANGELIST.
